

FLOOD CONTINGENCY PLAN FOR HOJAI DISTRICT (2022-23)

Prepared by:-District Disaster Management Authority, Hojai

Telephone: +91-6003256039

E-Mail: deoc.hojai@gmail.com

FORE WORD

Assam is a Land of Mighty River Brahmaputra along with many other major rivers and its tributaries. So Assam is highly vulnerable and most of its geographical area is prone to annual flooding. The Floods in Assam and other north-eastern states have caused devastation of life and property, which is an annual problem in the region.

District Flood Preparedness Plan is a multi response plan aimed to localize and reducing potential loss of life and property in flood as well as ensuring strong preparedness, responses, mitigation and recovery measures to deal with the disaster. The plan addresses itself to strengthening the pre-disaster and post disaster responses of District Administration and various Stakeholders.

I hope that the Plan will serve the purpose.

Sd/-
(Sri Anupam Choudhury, ACS)
Deputy Commissioner &
Chairman, DDMA, Hojai

INTRODUCTION:

Humans have been coping with natural disasters since time immemorial. There are so many disasters which cannot be controlled by human intervention. Due to human intervention in the natural processes, the destructive power and frequency of natural disasters have increased considerably. The vulnerability of environment has been increasing continuously due to human activities. But this is not one sided relationship. Humans are also the components of the environment. Hence they can't escape from the effects of environmental change processes. When local, regional or global processes of environment pose danger to humans or their property, they are simply natural events.

India is a developing country and prone to a number of natural hazards. Among all the natural disasters that country faces, river floods are the most frequent and often devastating. Floods have been a recurrent phenomenon in India and cause huge losses to lives, properties, livelihood systems, infrastructure and public utilities. So floods are a natural and inevitable phenomenon of life in almost all the states of India. Floods depend on many things such as Climate, nature of the Collecting basin, nature of the streams, soil, and vegetative cover, amount of snow melt and over all rainfall. Year to year variations occur are, noted with regard to climate and rainfall pattern along with floods. Even inadequate capacity of the rivers to contain the high water flows coming down from the upper catchment area following heavy rainfall leads to high floods.

Almost every year floods of varying magnitude affect some parts of the country or the other. Different regions of the country have different climates and rainfall patterns and, therefore, while some parts face devastating floods, other parts may, at the same time, experience drought conditions. The monsoon regime is a regular phenomenon. Year-to-year variations occur with regard to the onset of the monsoon, its progress over the Indian landmass, and the amount of rainfall distribution. In some years the variation is quite significant. Nevertheless, there is a fundamental regularity and dependability about the monsoon that sets the seasonal rhythms of life, although it also causes unfortunate losses across much of this part of the world.

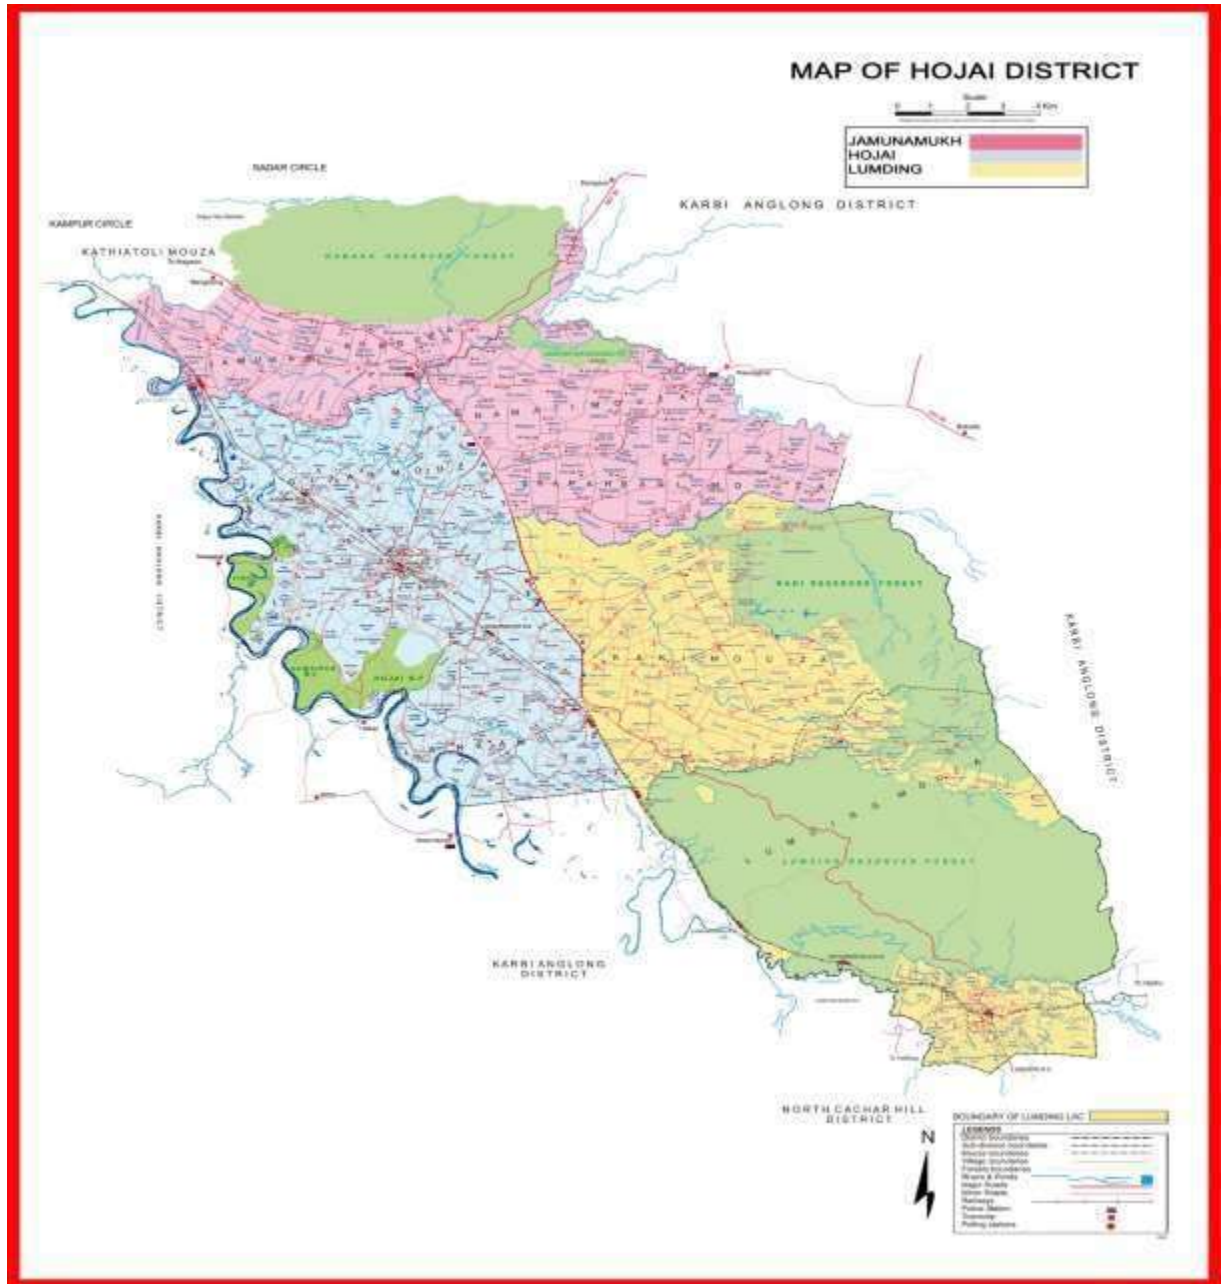

Floods being the most common natural disaster, people have, out of experience, devised many ways of coping with them. However, encroachments into the flood plains over the years have aggravated the flood problem and a need to take effective and sustained FM measures has been felt. Various measures, structural and nonstructural, have been taken by the central and state governments and as a result, considerable protection has been provided to the people.

Contingency planning is the identification, prior to a disaster, of all critical procedures and resources necessary for the organizations survival. The purpose of such a program is to anticipate, and plan for these emergency situations before they arise, thus lessening their effects. Such planning is a management tool, involving all sectors, which can help ensure timely and effective provision of humanitarian aid to those most in need when a disaster occurs. Time spent in contingency planning equals time saved when a disaster occurs. Effective contingency planning should lead to timely and effective disaster-relief operations.

OBJECTIVES OF THE PLAN:

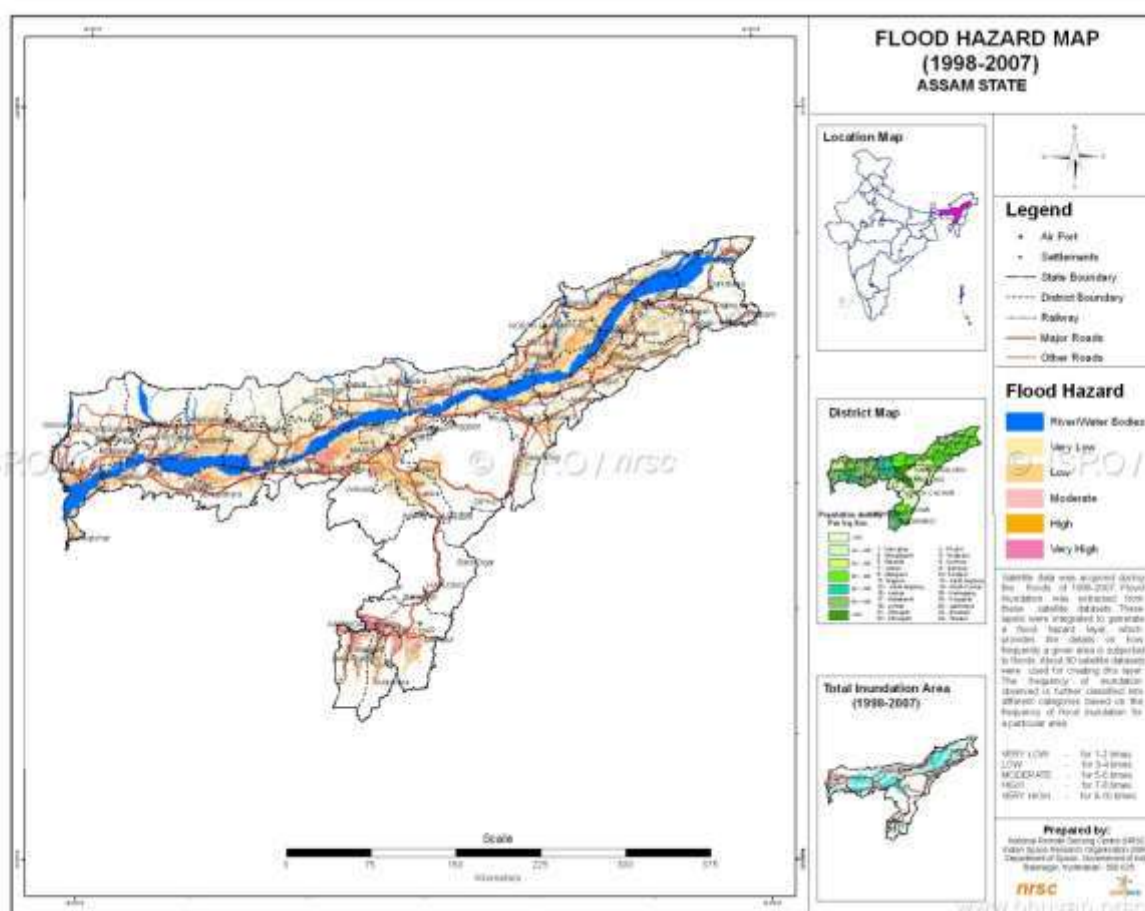

Developing a contingency plan involves making decisions in advance about the management of human and financial resources, coordination and communications procedures, and being aware of a range of technical and logistical responses. It involves making decisions in advance about the management of human and financial resources, coordination and communications procedures, and being aware of a range of technical and logistical responses. In order to achieve the Mission, the objectives of the plan have been set as:

- i) Systematic arrangement and deployment of resources
- ii) To reduce the impact of flood disaster.
- iii) Information, such as timely flood forecasts and warnings.
- iv) The provision of basic needs, such as shelter and medical
- v) Supply of drinking water, sanitation and food during floods.
- vi) Disruption of economic activities; Effective coordination
- vii) Urgent restoration of critical infrastructure and measures to be taken to bring normalcy immediately after the flood
- viii) To co-ordinate the relief activities by drawing up operational plan with all concerned departments/ agencies / NGOs to evolve a common plan for response.
- ix) To prepare list of buildings, Community Centres, Halls, Schools to be opened as temporary relief centres.
- x) To identify the list of susceptible places likely to be cut off or submerged during floods.
- xi) To identify high land / raised platforms for human and cattle shelter.
- xii) To Ensure flow of communication network, proper weather forecasting, warning level of the rivers, both upstream and downstream and developing an accurate warning mechanism.
- xiii) To ensure sufficient stock of essential commodities/ food stock and other essential items with proper storage facilities for immediate dispersal.
- xiv) To identify all vulnerable roads/ bridges/embankments prone to damage and preparation immediate measures for restoration of road links.

DISTRICT PROFILE, HOJAI:

Hojai district with its head quarter at Hojai town is spread across 1685 sq. kms within 26°00' North latitude and 92°87' East longitude. It was part of the Nagaon district until 15 August 2015 when it became a new district of the state. It is surrounded by the foot hills of East & West Karbi Anglong and Dima hasao district in the east, west and southern side and Nagaon district lies in the northern and western side. Total population of the district is 929094 (2011 census). With relatively high annual rainfall (253.53 mm) and the soil type in this region is clay loamy. The **major rivers** flowing through the district, which also causes annual floods and riverbank erosion etc., particularly in the char areas, leading to a considerable loss of life and property are **Kopili** and **Jamuna river**. Other minor rivers which also contribute to cause floods and riverbank erosion are Khringkhing river, Lumding river, Dimoru river, Nikhari river etc. Incessant rain at the upstream hilly terrain of Dima Hasao and release of water from Khangdong dam also causes Flash Flood at times. As per the Flood Hazard Map (source NRSC) of Assam, Hojai district falls under High flooded districts.

Hojai Administrative Profile :-

Some important information about the District

1. District	: Hojai
2. Revenue Circle	: Hojai, Lanka & Doboka Revenue Circle
3. Development Blocks	: a. Binnakandi Dev. Block b. Dhalpukhuri Dev. Block c. Jugijaan Dev. Block d. Lumding Dev. Block e. Udali Dev. Block
4. Assembly Constituency	: a. 90 Jamunamukh LAC b. 91 Hojai LAC c. 92 Lumding LAC
5. Total Geographical area	: 1685 Sq KM at present
6. Highest Elevation	: 59 M average
7. Geographical location	: Latitude-26°00' N Longitude-92°87' E
8. Total revenue village	: 372 villages at present
9. Total No. of Population	: 929094 nos (Census 2011)
10. No. of lots in three Rev Circles	: 59 nos.
11. No of Lot Mandals presently available in three circles	: 48 nos.
12. No of Mouza in the Rev Circle	: 8 nos.
13. Name of the Mouzas	: a. Jamunamukh Mouza b. Namati Mouza c. Kapashbari Mouza d. Jugijan Mouza e. Hojai Mouza f. Lanka Mouza g. Kaki Mouza h. Lumding Mouza
14. Total Gaonburah Lots	: 139 Nos
15. Number of Gaon Panchayats	: 67 Nos.
16. Police Stations	: 7 Nos
17. Average Rainfall	: 253.53 mm

DISTRICT FLOOD RELIEF COMMITTEE

A district level co-ordination committee will be formed to deal with the situation at district headquarter. The constitution of committee would be as follows:

Sl.No.	Person	Designation
1	Deputy Commissioner, Hojai	Chairman
2	Addl. Deputy Commissioner (Rev. & DM), Hojai	Convener
3	Superintendent of Police, Hojai	Member
4	Circle Officer, Hojai Revenue Circle	Member
5	Circle Officer, Lanka Revenue Circle	Member
5	Circle Officer, Doboka Revenue Circle	Member
7	B.D.O. Binnakandi Dev. Block	Member
8	B.D.O. Dhalpukhuri Dev. Block	Member

9	B.D.O. Jugijaan Dev. Block	Member
10	B.D.O. Lumding Dev. Block	Member
11	B.D.O. Udali Dev. Block	Member
12	All Assistant Commissioners in the District	Member
13	EE, Water Resource Div., Nagaon	Member
14	District Transport Officer, Hojai	Member
15	EE, PWD, Hojai Dist. Territorial Road Division	Member
16	District Agriculture Officer, Hojai	Member
17	Sub Div. Veterinary Officer, Hojai	Member
18	SDM & HO, Medical Dept. Hojai	Member
19	DPO, DDMA, Hojai	Member
20	AEE, Lumding Territorial Road sub Division.	Member
21	AEE, Jamunamukh Territorial Road sub Division	Member
22	AEE, Hojai Territorial Road sub Division	Member
23	Executive Engineer, PHE, Hojai	Member
24	Executive Engineer, Irrigation JCAD Division, Hojai	Member
25	Officer In Charge, Fire & Emergency Service,Hojai	Member

DISTRICT FLOOD MANAGEMENT TEAM:

Sl.No	Designation	Department/Agency
1	DC (Revenue & Disaster Management), Hojai	Administration
2	Superintendent of Police, Hojai	Police
3	Circle Officer, Hojai Revenue Circle	Revenue
4	Circle Officer,Lanka Revenue Circle	Revenue
5	Circle Officer, Doboka Revenue Circle	Revenue
6	All BDOs	DRDA
7	SDIPRO	SDIPRO
8	Executive Eng. Water Resources Department, Nagaon	Water Resource
9	Executive Engineer, PWD (Hojai territorial Road Division)	PWD

SEARCH AND RESCUE TEAM:-Contact Person. S.P., Hojai, Ph.No. 6026900652

Sl.No	Designation	Department/Agency
1	Superintendent of Police,Hojai	Police
2	Station Officer, Fire Station, Hojai	Fire
3	Executive Eng. Water Resourse Department, Nagaon	WRD
4	Executive Engineer PWD (Hojai Territorial Road Division)	PWD (RR)
5	Executive Engineer PWD (BLDG), Hojai	PWD (BLDG)

FIRST AID TEAM: Contact Person: Jt . Director, Health & FW Hojai,Ph.No. 9435060417

Sl.No	Designation	Department/Agency
1	Joint Director,Health & Family Welfare, Hojai	Health
2	District Social Welfare Officer, Hojai	Social Welfare

SHELTER MANAGEMENT TEAM:-Contact Person: ADC (Rev.&DM),Hojai, Ph.No. 8011161815

Sl.No	Designation	Department/Agency
1	ADC (Rev. & Disaster Management), Hojai	Administration
2	Addl. S.P. Hojai	Police
3	All Circle Officers	Revenue
4	All BDOs	DRDA
5	District Transport Officer, Hojai	Transport
6	Inspector of Schools, Nagaon	Education
7	District Elementary Education Officer, Nagaon	Education
8	Asstt. Executive Engineer, PWD (BLDG)	PWD (BLDG)
9	AGM, APDCL, Hojai	Electricity

RELIEF MANAGEMENT TEAM :-Contact Person:ADC (Rev.& DM), Hojai, Ph. No. 8011161815

Sl.No	Designation	Department/Agency
1	ADC, Rev. & Disaster Management,Hojai	Administration
2	Superintendent of Police, Hojai	Police Administration
3	Astt. Director, Food & Civil Supply	Supply
4	All Circle Officers	Revenue

DAMAGE ASSESSMENT TEAM: Contact Person: ADC (Rev.&DM),Hojai, Ph. No. 8011161815

Sl. No	Designation	Department/Agency
1	ADC, Rev. & Disaster Management, Hojai	Administration
2	All Circle Officers	Revenue
3	All BDOs	DRDA

PATROLLING TEAM:- Contact Person: S.P., Hojai- Ph. No: 8638388286

Sl.No	Designation	Department/Agency
1	Superintendent of Police, Hojai	Police Administration
2	All Circle Officers	Revenue

DUTIES AND RESPONSIBILITIES OF THE OFFICIALS:

- 1 To plan, organize and make systematic rescue and relief operation in the District.
- 2 To co-ordinate the efforts of the Govt. depts. in connection with the relief operation.
- 3 To co-ordinate and liaise with the activities of both rescue and relief operation of the Revenue Circle area.

FLOOD CONTINGENCY PLAN OF REVENUE CIRCLES:

1.HOJAI REVENUE CIRCLE:-

Sl No	Name & Designation	Position	Phone Number
1	Chandan Borgohain, ACS, Circle Officer,Hojai	Chairman	8638330641
2	Krishna Kishore Saharia,Circle Officer(Attached), Hojai	Vice Chairman	6003872434
3	Saponjyoti Debnath, Field Officer, Disaster Management	Convenor	7002837614
4	Moni Devi, BDO, Jugijan Dev. Block	Member	9435634956

18	Manoj Kr. Bora, Inspector, FCS & CS	Member	8876977476
19	Pikumoni Das, SO, F&ES & I/c SDRF, Hojai	Member	9365418839
20	Pranab Kr. Bora,BEEO,Jugijan	Member	9706868655
21	Tapan Kumar Medhi, O/C, Hojai	Member	9435199981

(a) Location, General Boundaries, Total area and Population:

The Hojai Circle which is situated on the south west bank of the Dimaru river occupies a central geographical position in the in the Entire district. The circle lies between Latitude 26^oN and 92^o E Longitudes. On the north it is bounded by the Doboka Rev Circle & Nagaon District, on the east by Lanka Rev Circle & East Karbi Anglong Autonomous Council and on the west of the district by west Karbi Anglong Autonomous Council.

The total population of Hojai Circle is 228,530 out of which urban population is 61,045 while rural is 167,485. As per Census 2011, total families in Hojai were 11,634. As per Census 2011 out of total population, 26.7% people lives in Urban areas while 73.3% lives in the Rural areas. The average literacy rate in urban areas is 86.1% while that in the rural areas is 76.2%. Also the Sex Ratio of Urban areas in Hojai Circle is 952 while that of rural areas is 957.

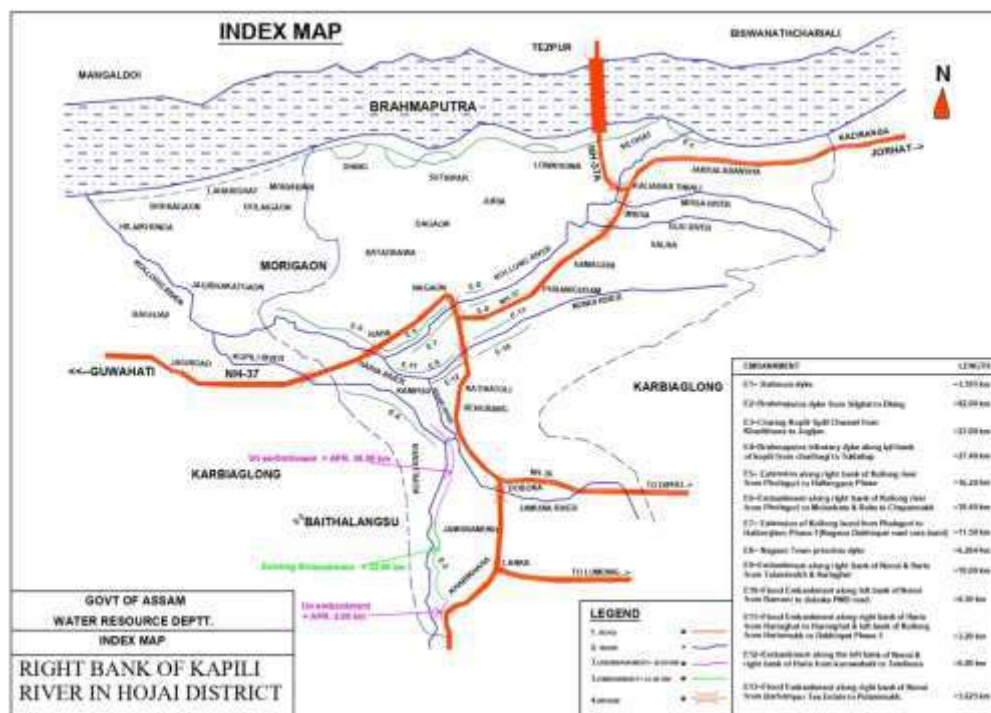

The population of Children of age 0-6 years in Hojai Circle is 34242 which are 15% of the total population. There are 17317 male children and 16925 female children between the ages 0-6 years. Thus as

per the Census 2011 the Child Sex Ratio of Hojai Circle is 977 which is greater than Average Sex Ratio (956) of Hojai Circle.

The total literacy rate of Hojai Circle is 78.93%. The male literacy rate is 71.79% and the female literacy rate is 62.2% in Hojai Circle.

(b) River System:

- I. **The Kopili River:** The Kopili River which rises in the Jaintia Hills (Meghalaya) flows north and north-east winding through the Jaintia Hills and North Cachar Hills. It is joined by the Doiang River below the foothills and the combined channel flows in a north- westerly direction. At Jamunamukh in Nagaon district it is met by its eastern tributary the Jamuna and flows past Raha after taking a westerly turn. Here it is joined by a branch channel with the Kolong River and at Jagiroad, it finally meets the main stream of the Kolong after a course of 262 Kms. from its origin.
- II. **The Jamuna River:** The Jamuna River, the main tributary of the Kopili originates from the Khanbamun hills in Karbi Anglong District and flows from east to west for a length of 120 Kilometers and falls in the Kopili near Jamunamukh. The river is fed by several small tributaries namely the Lenghit, Disama, Disa, Dighalpani, Dikharu, Buriganga, Dimaru etc.

FLOODS IN HOJAI CIRCLE:

Hojai Revenue Circle is partially flood prone circle. There are 77 villages located in the flood prone zone. From past history, it is seen that this circle had experienced-05 major floods during last 20 years. During those floods, many areas were badly affected and some areas were submerged by flood water and affected families had to be shifted to different relief campus. Communication got disrupted in some places and G/R was distributed among the affected population. In 2010, in the month of August (1st wave) in the month of October (2nd wave) a flash flood occurred in the Jamunachit area and affected around 15000 families (Approx). This Circle also experienced the have flood which occurred in the year 2004, which lasted for the longest period. The major source of flood to this Circle is river Kapili, river Jamuna, river Dimru. The total no. of affected population for the probable flood may be estimated as 1,27,693 (approx.). To combat with the flood, particularly for smooth conduct of relief and rescue operation during the flood period in Hojai Revenue Circle, a circle level Task Force is formed. The flood prone areas have been identified from previous records and these areas have been divided into 4 (Four) zones for smooth conduct of relief and rescue operation. Each Zone will be given in the charge of one responsible govt. officer of Hojai Revenue Circle area. He/She will be overall charge of smooth functioning of relief and rescue operation. He/She will keep close contact with the Circle Officer as well as Circle Level Relief Committee and take timely action according to the need of the situation. All the Gaonburah, and VDP members of this committee. They will render all possible help to the committee as per demand of the hour.

FLOOD IN DOBOKA REVENUE CIRCLE

The Doboka Revenue Circle is prone to devastating flood, which is quite evident from the last past history. The major rivers that flows in and around Doboka Revenue Circle are- Jamuna river, Kapili river, Dimaru river along with there several tributaries. The circle comprises of 108 Revenue villages and 01 (one) Non Cadastral village out of which 50 villages are likely to be affected in case of flood situation. A brief history of last 20 years shows that, the circle has undergone 5 major flood hazards which led to severe damages of properties, communication, agriculture and loss of livestock's etc. affecting the Social- economic culture of the Society. During flood major part of the Revenue Circle remains submerged by flood water and the measures were adopted in due course to shift and shelter the affected families in different relief camps situated in comparatively high land areas, such as high raised platforms, schools and railway platform etc. and gratuitous reliefs were also distributed among the flood affected people residing in the camps at the evoke of such crucial situations. In addition, measures were also taken for sanitary facilities, safe drinking water and disinfectant packets were also distributed to keep the surrounding environment safe and clean.

It is estimated that approximately 1,15,958 population are vulnerable to probable flood. To combat with such situation and for smooth conduct of relief and rescue in Doboka Revenue Circle, a Circle Level Committee is proposed to be formed comprising of the circle Officer, Doboka as Chairman and the local head of the Govt. Officers of various Depts., representatives of Panchayat and Zila Parishad, leading citizens of Doboka Revenue Circle as members.

The flood prone areas have been identified from previous records and these areas have been divided in 3 sectors namely Jamunamukh Mouza, Kapahbari Mouza and Na-mati Mouza. Each sector will be headed by a responsible senior Govt. officer of Doboka Revenue Circle. He will be responsible for smooth and effective management of flood relief and rescue operations. He/ she will keep close liaison with the Circle Officer as well as with the Circle Level Disaster Management Committee adequate measures according to the need of the situation. All the Gaonburha and VDP members are also member of this committee and they shall render all possible help to the committee as per demand of the hour.

In the year 2004 three devastating waves of flood occurred and created havoc among the vulnerable population of the district. In that year, flood waters of Kopili inundated many areas in Kampur, Raha and Hojai District's circles. Jamuna River also inundated areas in Doboka circle of Hojai district disrupting road communication between Doboka and Diphu. Army help has been sought for restoration. In the district about one lakh people have been affected by the flood in the year 2004.

FLOOD IN LANKA REVENUE CIRCLE

The Lanka Revenue Circle is prone to devastating flood, which is quite evident from the last past history. The major rivers that flows in and around Lanka Revenue Circle are; Kapili river, Dimaru river, Khoring Khoring River & Lumding river along with there several tributaries. The circle comprises of 162 villages including 11 nos of Non Cadastral villages. There are 28 Nos of flood affected villages in Lanka Rev. Circle. Out of these villages there are 11 Nos are highly flood affected, 9 Nos moderate flood affected and 8 nos are low flood affected villages. During flood revenue villages remains submerged by flood water and the measures were adopted in due course to shift and shelter the affected families in different relief camps situated in comparatively high land areas, schools and embankment etc. and gratuitous reliefs were also distributed among the flood affected people residing in the camps at the evoke of such crucial situations. In addition, measures were also taken for sanitary facilities, safe drinking water and disinfectant packets were also distributed to keep the surrounding environment safe and clean. It is estimated that approximately 49,488 population are vulnerable to probable flood. To combat with such situation and for smooth conduct of relief and rescue in Lanka Revenue Circle, a Circle Level Committee is proposed to be formed comprising of the Circle Officer, Lanka as Chairman and the local head of the Govt. Officers of various Depts., representatives of Panchayat and Zila Parisha, leading citizens of Lanka Revenue Circle as members.

The flood prone areas have been identified from previous records and these areas have been divided in 2 sectors namely Lanka Mouza and Kaki Mouza. This two sectors has covered by Zone 1 and the in-charge of this Zone is Circle Officer and Circle Officer (A). Each sector will be headed by a responsible senior Govt. officer of Lanka Revenue Circle. He will be responsible for smooth and effective management of flood relief and rescue operations. He/ she will keep close liaison with the Circle Officer as well as with the Circle Level Disaster Management Committee adequate measures according to the need of the situation. All the Gaonburha and VDP members are also member of this committee and they shall render all possible help to the committee as per demand of the hour.

The details of the Sector Officer and Sub Sector Officers are as follows:

SECTOR 1	
Comprising village under Lanka Mouza	
Sector Officer	Dimpi Gogoi, ACS, Circle Officer Mobile No: 8011573103
Sub Sector Officer	Minakshi Mahanta, BDO, Dhalpukhuri Dev. Block Mobile No: 7086837464
Sub Sector Officer	Gyanpradeep Borgohain, ADO, Bamungaon-I Mobile No: 7086769570

SECTOR 2	
Comprising village under Kaki Mouza	
Sector Officer	Bhaswatee Deka, ALRS, Circle Officer (A). Mobile No: 9706665748
Sub Sector Officer	Sri Uddipta Gautam, ACS, BDO, Udali Dev. Block Mobile No: 8804487337
Sub Sector Officer	Pankaj Barman, ADO, Kaki Mobile No: 7002358549

NAME OF THE DEVELOPMENT BLOCK:

- a) Binnakandi Dev. Block
- b) Dhalpukhuri Dev. Block
- c) Jugijaan Dev. Block
- d) Lumding Dev. Block
- e) Udali Dev. Block

1. All The Circle Officers under The District will be the overall in-charge of the Zones as well as entire relief operation of their respective circle and they will be assisted by other members of the Flood Relief Committee and concerned L.Ms /Gbs, VLMCCs and Line Deptts as and when necessary.
2. For disseminating awareness, information and sensitization of affected people, the O.C of concerned Police Stations will make use of their available logistics and personal. They will also make availability of Relief Facilities/Equipment/Infrastructure etc. Under their respective jurisdiction.

Govt. of Assam
Office of the Circle Officer :: Lanka Revenue Circle

NOTIFICATION

No. LKRC.5 (DM)/2019-20/Part-II/ **3391**

Date: 13/04/2022

In pursuance of the direction of the Govt. Notification No. RGR(RRR)521/2019/1, Dtd. Dispur, the 26th May, 2021 of Revenue & Disaster Management Department a Circle level Task Force is here by constituted for the purpose of post flood damage assessment with the following members:

Sl. No	Name & Designation	Position	Phone Number
1	Dimpi Gogoi, ACS, Circle Officer, Lanka	Chairperson	8011573103
2	Jitu Borah, Field Officer, DM	Member Secretary	9854787674
3	Uddipta Gautam, ACS, BDO, Udali Dev. Block	Member	8804487337
4	Anjali Deka, BDO, Lumding Dev. Block	Member	7578954344
5	Minakshi Mahanta, BDO, Dhalpukhuri Dev. Block	Member	7086837464
6	Sujib Roy, AEE, Irrigation, Lumding Sub Division	Member	7002087714
7	Rupankar Borah, SDO, APDCL, Lanka	Member	8638727775
8	Ruka Chand Kor, SDO, APDCL, Lumding	Member	8638443372
9	Gyanpradeep Borgohain, ADO, Bamungaon-I	Member	7086769570
10	Smti. Moyurtrishna Rajkhowa, ADO, Bamungaon-II	Member	6003896661
11	Pankaj Barman, ADO, Kaki	Member	7002358549
12	Ngahneithiem Lenthang, ADO, Lumding	Member	8011380060
13	Ratan Thawsen, JE, WRD	Member	7002704843
14	Phuleshar Nonesha, BEEO, Lanka	Member	9954373771
15	Dr. Harajagindra Singh, SDO, Lanka	Member	8638545031
16	Diganta Saikia, AEE, Lumding Territorial Road Sub Div.	Member	9435016279
17	Vikash Kalita, AEE, PHED, Lumding Sub Division	Member	9854080486
18	Dr. Lochan Ranjan Talukdar, BVO, Bamungaon	Member	9435168360
19	Dr. Jintu Kakoti, VO, Derapather	Member	8752854330
20	Dr. Momi Gogoi, VO, Lumding	Member	7002540689
21	Dr. Anzad Ali, (i/c) VO, Laskar Pather	Member	8638692217
22	Khogen Upadhaya, CDPO, Lanka	Member	9101148021
23	Lakhi Prasad Borah, CDPO, Dhalpukhuri	Member	9864464878
24	Sadhana Patar, CDPO, Lumding	Member	7099107671
25	Renu Kumari Bora, CDPO, Udali	Member	9401274215
26	Lakshman Das, Demonstrator Fishery, Udali Block	Member	6003755608

27	Bhupen Dutta, Demonstrator Handloom & Textile, Lanka	Member	9401244475
28	Abdul Kadir Sarkar, Demonstrator Sericulture, Lanka	Member	9707826742
29	Anil Rongpi, (i/c) F&ESS, Lanka	Member	9101218971
30	Anup Kemprai, (i/c) F&ESS, Lumding	Member	8099434645
31	Rabindra Nath Kalita, F&ESS, Sankardev Nagar	Member	9707811397

The Task Force in coordination with the concerned line departments shall prepare and submit proposals for Rehabilitation Grant against storm/flood/cyclone/fire/erosion/land slide as per the SDRF norms expeditiously.

Further, the Task Force shall also prepare list of beneficiaries for admissible assistant under SDRF norms for agriculture/Animal Husbandry/Handicraft/Handloom/Housing/Fishery/Sericulture and proposals for immediate restoration of damaged minor infrastructures like Primary School, Primary Health Centre, Electric poles, wires, Panchayat Ghar, Anganwadi Centre etc. and submit the same to the District Disaster Management Authority (DDMA).

All the aforementioned proposals shall submit not later than 15 days of the occurrence of the disaster to the District Disaster Management Authority (DDMA).

The Task Force in co-ordination with the concerned line departments shall prepare and submit proposals for Rehabilitation Grant against storm/flood/cyclone/fire/lighting/erosion.

Date: 13/04/2022

Copy to-

- ✓ 1) The Deputy Commissioner, Hojai Sankardev Nagar for favour of kind information.
- 2) The Addl. Deputy Commissioner (Rev.) cum CEO, DDMA for favour of kind information.
- 3) All the Members for information and necessary action.
- 4) Office file.

Circle Officer
Lanka Revenue Circle
Lanka, Hojai, Assam

CONTINGENCY PLAN OF LINE DEPARTMENTS:

I. P.W.D. Hojai Building Sub-Division:

Introduction: The state of Assam has been facing the natural calamities like flood annually during Monsoon season displacing millions of people from their homes and damaging crops, properties and cattles . Thousands of people also loss their lives during the flood. Hojai District is also a flood prone District of Assam and suffers innumerable losses during flood. PWD building has also some roles and responsibilities in helping the affected people and thus this flood contingency plan has been prepared to reduce miseries of people during flood.

Pre flood: Identification of high land and estimation of people affected living in low lying area. To give temporary shelter to flood affected people of Hojai District, it is necessary to identify high land like embankment and surface road and others structures of high land. For this a survey has to be conducted along with estimation of probable affected people.

During Flood: Construction of relief camps.

To provide shelter to affected people, it is necessary to construct relief camps on the high land of the District with bamboos and CGI sheets and tarpaulins. It may be estimated that around 500 (Five Hundred) families will be displaced from their homes with average 5 (Five) members in each family with an average cost of Rs. 4,000.00 (Rupees Four thousands) per family.

Post Flood: Thousands of houses will be washed away comprising huts, A/T houses etc. Hence, cost of these should be estimated.

Being an executing agency PWD Building Hojai has no monetary resources of its own and hence, the Govt. should provide the above amount to this department to assist the affected people as per this flood contingency plan for the current year. It may be mentioned here that the departmental Buildings of PWD Building Hojai have no Previous report of damages due to flood and hence cost of the same may be treated as nil.

Flood Management Committee of PWD Hojai Building Sub-Division

II. Agriculture Department:

INTRODUCTION :

Agriculture is the back bone of the economy of Assam and Hojai district as well because approx. 80% of the population of the district depends primarily on agriculture for their livelihood. Without the growth in agriculture sector, a nation and the states cannot prosper. So it is our top most priority to assist the farming community for increasing production and productivity of crops so as to enrich their socio economic status.

Our district, Hojai has got approx. 76,261 ha cultivable land possessed by 126,337 Nos. of farm families. our department is also doing the following activities in order to contain the disease in our district. The basic information in respect of hojai district is shown below.

2	NET CROPPED AREA	76,261 Ha (45.23%)
3	GROSS CROPPED AREA	134,982 Ha
	MONO CROPPED AREA	31267 Ha (41%)
	DOUBLE CROPPED AREA	34,314 Ha (45%)
	TRIPPLE CROPPED AREA	10,680 Ha (14%)
4	CROPPING INTENSITY	177%
5	TOTAL NOS. OF FARM FAMILIES	126,337
	LANDLESS	25,267 (20%)
	MARGINAL	58,115 (46%)
	SMALL	34,112 (27%)
	BIG	8843 (7%)
11	NOS. OF ADO CIRCLE	10
12	NOS. OF AEA ELEKA	59
13	GOVT. SEED FARM	1
14	SEED DEALER	6
15	FERTILIZER & PESTICIDE DEALER	522
16	IRRIGATED AREA	23,200 Ha (30.42%)
17	FARM MACHINARIES :	
	TRACTOR	280 NOS.
	POWER TILLER	378 NOS.
	SHALLOW TUBE WELL	3872 NOS.
	ELECTRIC PUMP SET	2670 NOS.
	HC SPRAYER	8382 NOS.

FLOOD AND ITS IMPACT IN AGRARIAN SOCIETY:

Due to heavy rainfall in the upper catchments throughout the rainy season, a major portion of the Hojai district is always affected by flood. Serious damage of agricultural crops such as Winter Paddy, Sugarcane, Maize, Jute, Summer paddy, vegetables and other crops etc. are occurred almost every year which affect our farming community very badly and in turn the rural economy is badly hampered. The occurrences of flood is generally experienced during the month of July and August. It is also seen from the previous years that flood occurs in the later part of May and continues upto October. There are 5-6 waves of flood taken place in Hojai district during 2020-21 and it practically destroys the crops across more than 100 villages of the district. Threatening of flood mainly comes from the river Kopili, Dimoru, Yamuna and Nikhari river which are flowing through the district.

During 2019-20 a total of 6892 Ha crop area were completely damaged across 84 revenue villages having loss to 12551 farm families and again in 2020-21 an area of 6472 Ha of crops across 81 revenue villages from 10020 farm families of the district were lost due to heavy flood. As per SDRF norms an amount worth Rs. 6.892 crores and 6.472 crores for the year 2019-20 and 2020-21 were lost respectively.

ACTION PLAN FOR FLOOD PREPAREDNESS IN RESPECT OF AGRICULTURE DEPARTMENT.

Flood, a natural phenomenon cannot be stopped completely but the damage and loss of crops and other properties may be minimized provided advance planning is done in a proper way. The major loss in agriculture sector is occurred during flood which deteriorates the lives of the farming community. The District Agriculture department has initiated the following measures as preparedness for flood to ensure minimum loss of crops etc.

1. EXTENSION MEASURES FOR FLOOD RESISTANT VARIETY:

At present there are 8 Agriculture Development Officers (ADO) and 11 grass root level workers known as Agriculture Extension Assistant (AEA) under the establishment of the District Agricultural officer, Hojai. They are visiting various chronically flood affected villages across the district and have made awareness programme among the farmers. The farmers have been sensitized on different ways to reduce the loss of crops during flood. One of them, the use flood tolerant paddy varieties in winter season is also highlighted. There are recommended varieties of Sali Paddy for flood-prone areas that can withstand

water-logging or submerged conditions occurred by flood water. ADOs in consultation with District Agricultural Officer Hojai and Sub-Divisional Agricultural Officer Hojai have listed rice varieties suitable for flood affected areas in order to minimize crop loss by flood water. The varieties such as Swarna Sub-1, Ranjit Sub-1, Bahadur Sub-1 etc. released by the Assam Agricultural university, Jorhat can thrive minimum 15 days in submerged flood water and their yield is also very good i.e. approx. 58-64 Qtl/Ha. Apart from that some varieties like BINA DHAN-11, CR DHAN-501, CR DHAN -505 etc. may also to some extent can survive in submergence situation. The extension functionaries have suggested the farmers in their respective areas to grow these types of varieties of paddy in the flood prone areas so that they can at least harvest the winter paddy even after flood. Some varieties of paddy like culture-1, Bina-11 etc. may be harvested in short duration though their production is somewhat lower as compared to other HYV paddy. But these varieties may be sown even after recede of flood water. So all these information have been communicated among the farmers during awareness meeting.

Sl.No.	Crop name	Recommended varieties	Duration	Yield /Ha (MT)
1.	Sali Paddy	Swarna Sub-1,	140-145 days	5.8-6.5 t/ha
		Ranjit Sub-1,	150-155 days	5.5-6.0 t/ha
		Bahadur Sub-1,	150-155 days	5.5-6.0 t/ha
		BINA DHAN-11,	115-120 days	5.0-5.8 t/ha

Farmers have been made aware that transplanting of the above varieties should not go beyond 10 August to have a good performance.

Apart from that the agriculture department has decided to follow the activities as per table shown below.

Sl.No	Activities	Time Line	By whom	Expected Result
1.	Contact with KVK/RARS, State Agricultural University for flood relevant varieties of rice	By 30 th April	SDAO/ Nodal Officer DM	Flood tolerant varieties will help to reduce loss due to

	and collection of package of practices and also short duration varieties that can grow after flood.			flood. Short duration varieties can be transplanted after flood.
2.	Assessment of availability of flood tolerant varieties at District Agriculture Office, Hojai at Assam Seed Corporation Sale Counter, Hojai in consultation with Branch Manager, Assam Seed Corporation Hojai Branch	By 30 th April	DAO/SDAO & I/c Branch Manager, ASC, Hojai	Farmers can purchase these varieties at Govt. Approved rate and also free of cost in Govt. schemes like RKVY, BGREI, DM and NFSM etc.
3.	Visit to flood prone areas to make an assessment on present crop stand and number of farm family generally affected by flood. i) Preparation of Block-wise flood prone areas map and submission to DC, Hojai ii) Estimation for requirement of seeding, pesticides, manures and other agril. Inputs. iii) Selection of sites for raising Community Nursery in agricultural land and private land.	By 30 th April By 30 th April By 30 th April	DAO,SDAO/ADOs/AEAs DAO/SDAO/ADOs SDAO/Nodal Officer DM/ADOs/AEAs	Will help in raising Community Nursery for Sali Paddy as and when required for distribution of seedlings amongst the flood affected farm families.
4.	Conduct of Awareness among the farmers in flood prone areas regarding recommended flood tolerant varieties such as Ranjit Sub-1, Swarna Sub-1, Bahadur Sub-1, BINA DHAN-11, CR DHAN=501, CR DHAN-505	By 15 th May	ADO/AEA	Growing of flood tolerant varieties will reduce crop loss due to flood.

2. CROPPING PATTERN:

Cropping pattern is the sequence of crops grown in a year and it is practiced depending on the type of soil and availability of resources. It varies from area to area as the climate and soil of the various parts of the district do not tally. Cropping pattern plays a major role in crop production specially in flood prone areas. So our officials in consultation with the scientists of KVK and RARS, Nagaon have sorted out few cropping pattern for the flood prone localities and these are noted below.

Sl	ADO circle	Crop Name	Time of Sowing	Recommended Varieties
----	------------	-----------	----------------	-----------------------

No				
1	Hojai	Sali Paddy	June/First part of July	Ranjit Sub-1, Swarna Sub-1, Bahadur Sub-1 Bina Dhan 11
		Black Gram	August/Mid September	T-9,T-27

		Pea	October/November	HUDP-15
		Lentil	October/November	PL-7

3. VISIT IN FLOOD PRONE AREAS:

Our field functionaries have been visiting the flood prone villages under their jurisdictions and have made necessary assessment related to crop area affected with numbers of farm families whom are suffered due to occurrence of flood almost every year.

The main flood affected villages as per ADO Circles in the year 2020-21 are shown below.

Sl. No.	ADO Circle	Affected villages (Revenue & non-revenue)	Nos. of revenue village	Source of flood
1.	Hojai	Theplaguri, Raikata Islampur, Raikata Chandanpur, Komrakata, Dakhin Komrakata, Forest village,Jathiara, Pachim Amtola, Amtola, Hawaipur, Bisnupur, Mainapathar, Dighalballi, jorangpathar, Jamunasit, Darjesit.	16	Kapili river, Dimoru river,
2	Jugijan	Dobokanala, Saotal Basti, Pub-Jugijan, Siliguri, Rajapukhuri, Borhola, Rajbari, Amlipukhuri, Jugijan Gaon, Pachim Baguri, Pub-Baguri, Namdoboka, Dakhim Bedouati, Ahumpara, Mahpara, Barafuti, Jugijan, Brajapur, Kandulimari, Hatimara, Kenduguri, Nabhanga, Kathalpur, Rajbari, Shivpur, Hayang	39	Kapili river, Dimoru river, Yamuna river.

		Gaon, Hayang Basti, Matikhola, Radhanagar, Warigeding, 2No. Rahanagar, Balirampathar, Taradubi, Solmari, Pub-Solmarian, Pub-Nabhanga, Dankipathar, Dakhin Kenduguri.		
3	Choudhury Bazar	Podum pukhuri, Kapasbari, Noor nagar, Uttar dimrupar, Dakhin Pabijuri, Tengtoli, Koroini	7	Dimoru river
4	Rengbeng	Jungle block, Patidoya, Bhedauti, Charlock, Patiapam, Patiapathar, Era kapili, Jugijan gaon, Baliram, Changjurai, Kathkatia Bhakatgaon, Dekerua, Changmaji mikirpathar, Changmaji gaon, Bherbheri, Nagayapam, Dobokapathar, 48 no. block, Bheluguri pathar, Sarupathar, Bheluguri	21	Kapili and Jamuna river
5	Nilbagan	Topotjuri, Digarumukh & Niz parokhuwa	3	Jamuna river
6	Bamungaon- I	Dakhin laskar pathar, Uttar laskar pathar, Dablong, Bordolong, Thaisubali, Farmarpar, Akantu, Simlai pathar, Khari khana bilgaon, Manduli, Singjuri Samboria, Dagaon, Nangal bhanga, Alisinga, Pachim Dablong etc.	15	Kapili river

REVENUE CIRCLE WISE CONSOLIDATED STATEMENT OF CROP DAMAGE DUE TO FLOOD FOR THE YEAR 2010-21 IN RESPECT OF HOJAI DISTRICT.

Sl. No	Revenue Circle	Nos. of village affected	Nos. of Farm Families affected	Crop Area damaged (Ha)				Remarks
				Rainfed	Irrigated	Pere-nnial	Total	
1	Hojai	53	6157	1326	1735	0	3060.7	ADO Circle: Jugijan/Hojai/R.beng /B.Gaon-I/Deboathan /Nilbagan/Ch.Bazar Crops: W.paddy- 2342 Ha S.paddy- 2825 Ha Jute- 812 Ha Veg.- 437 Ha
2	Lanka	11	378	145.6	0	0	145.57	

3	Doboka	17	3485	2176	1089.92	0	3266.1	Others- 56 Ha Amount:- R.fed @6800/-Ha = 248.03 lakh Irrgtd. @13500/-Ha = 381.04 lakh G.Total= 629.414 lakh
Total		81	10020	3647	2824.92	0	6472.4	

1. ASSESSMENT FOR REQUIREMENT OF SEEDS AND OTHER INPUTS :

Farmers in the flood prone areas do not possess sufficient quantities of seeds of paddy and other crops along with other agricultural inputs due to flood and the agriculture department must take a vital role to provide them with those required seeds in due season. On the basis of loss during the previous years the following seeds and other inputs would be required to cover the flood affected areas. As per report of The field officials, the following seeds and other inputs would be required to meet the demand of farmers in flood affected villages and the demand for the same are also placed before the Director of Agriculture, Guwahati for necessary action.

Sl. No	Name of inputs	Proposed area (Ha)	Total quantity (Qtl.)	Remarks
1	Winter paddy seeds	3220	1288	Flood tolerant varieties such as Ranjit Sub-1, Swarna Sub-1, Bahadur Sub-1, Bina-11 etc.
2	Summer paddy seeds	2785	1114	Hybrid paddy like Aruze-6444 Gold, PAC-835 etc.
3	Jute seeds	627	47	JRO-532, JRO-632 etc.
4	Black gram seeds	580	174	T-9, T-27
5	Green gram seeds	250	75	T-44, K-851
6	Vermicompost	1560	380	
7	PSB/Azotobacter	1400	178	
8	Plant protection chemicals	-	460 Lit.	Chloropyriphos/Quinalphos etc.

2. KCC LOAN AND OTHER MID-TERM LOAN:

The financial condition in flood prone areas is very deplorable because of flood and as a result they are not in a position to invest money to procure seeds and other essential inputs for better crop production. The agriculture department would provide them with free seeds with manures to recoup their crop loss. On the other hand financial institutions have also taken up measures in the form of Kisan Credit Card

providing financial aid in minimum interest. During the current year a target of 14072 Nos. of KCC is fixed by various banks under Hojai district. It is also emphasized to disburse more numbers of KCC in the flood prone areas during rabi season when vegetables, pulses and other horticultural crops are grown smoothly.

3. USE OF PESTICIDES ETC.:

Flood followed by continuous dry spell and high temperatures serves as suitable breeding environment for pests to breed. In flood prone areas Brown Plant Hopper, Stem borer, Swarming Caterpillar and Caseworm infestation gets much higher. As such judicious application of pesticides is necessary to prevent pest infestation at economic threshold level and avoid it from reaching economic injury level. Injudicious use of pesticides and chemical fertilizer will kill beneficial insects. Pest might develop resistant against the pesticides that might greatly affect the crop health in the future. Injudicious use of chemical fertilizer will deteriorates soil health. Therefore, judicious use of pesticides and chemical fertilizers are very important.

ADOs with technical support and guidance from District Agricultural Officer, Hojai and Sub-Divisional Agricultural Officer, Hojai will hold demonstration on Dry Seed Treatment of Sali Paddy Seed from May 6 to May 15, 2022 involving PRI members for prevention of seed-borne diseases of rice. The recommended fungicides for dry seed treatment are given below:

Fungicides	Dose (g/kg of seed)	Cost of fungicides to seeds required per Ha
Mancozeb	2.5	Rs. 57.00 for line sowing
		Rs. 83.00 for broadcasting
Captan	2.5	Rs. 66.00 for line sowing
		Rs. 97.00 for broadcasting
Carbendazim	2.5	Rs. 94.00

There is every possibility for occurrence of pest outbreak in paddy field grown after flood. Pests like swarming caterpillar and hispa may create havoc to the farmers destroying their crops in a large scale. Hence regular visit to standing crops and subsequent control measures need to be taken in those flood prone areas. Our grass root workers have been instructed to keep regular monitoring of field visits to escape the pest menace. Besides there are sufficient stocks of pesticides like chloropyrifos and quinalphos to help the farmers during such crisis.

4. RAISING COMMUNITY NURSERY :

Community nursery for growing seedlings of winter paddy are being taken up likewise other years in the district. Last year an area of 50 ha in five different locations were sown with Sali seeds with flood tolerant varieties of winter paddy. The seedlings out of the community nursery could be distributed

free of cost to aprox. 1840 farmers whose paddy were damaged due to flood. This year a target of 100 Ha area for Community Nursery is identified in 8 locations across the district where Sali seeds with variety, Swarna Sub-1/Ranjit Sub-1 have to be sown to raise seedlings and it is estimated that around 3700 farmers could be assisted with their requisite seedlings after the flood.

The sites selected for growing Sali seedlings in community nursery are-Borpukhuri Seed Farm, Radhanagar, Sardargaon, Dakhin Komrakata, Raikata Kacharigaon, Pachim Jamunagaon, Brajapur and Jorangpathar.

FEW SNAPS ON COMMUNITY NURSERY DURING 2021 IN HOJAI DISTRICT

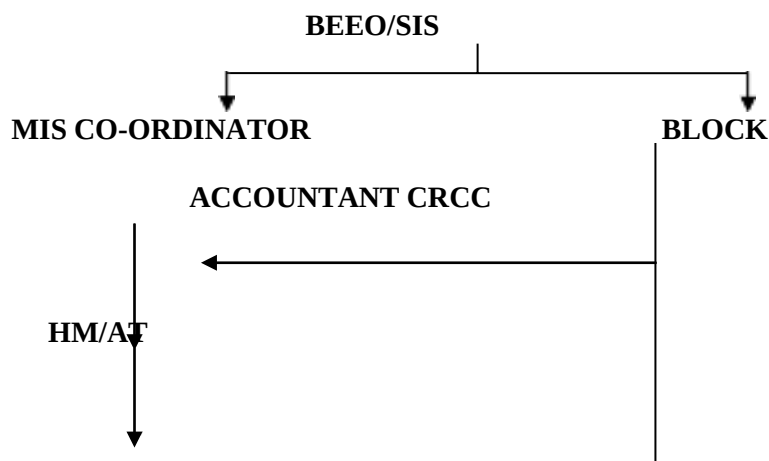

III. Education Department:

A. Jugijan Block Elementary Education office:

Pranab Bora (BEEO & BMC) - 9435368615

E-MAIL ID: jugijanblock@rediffmail.com

BLOCK LEVEL RESPONDENT TEAM FOR THE DISASTER MANAGEMENT. UNDER BEEO, Jugijan

In case of any emergency regarding disaster, the official will perform their duties as per hierarchy. In case of any damage of property the designated person will immediately inform the circle officer, with a copy to the DIS,hojai and DEEO/DMC,Nagaon. Some basic steps to prepare in schools for the flood.

1. Identify potential hazards and know how to secure or protect children before the floods strikes.
2. Be preparing to turn off electrical power when standing water, fallen power lines e.t.c.
3. Turn of Gas and Water supplies before evacuation.
4. First-Aid kit and manual should be kept in schools.
5. Evacuate the children and keep them under safe roof.
6. Rice, vegetables, kitchen accessories, cooking utensil, and firewood should be kept in a safe place to provide meal in case of emergency.
7. Not to let go off children until the flood recede.

Under Jugijan Education Block Kandulimari, Barafuti, Jamunamukh (Partially), Nagayapam, Borhola, Charlock and Komorakata are the most flood prone areas. During floods nearby schools which are not affected by the floods are invariably ready to provide shelter to all flood affected peoples. All staff of BEEO & BMC Lanka is ready to remain present in the head quarter and will ready for pre-emergency and post disaster. Head Teachers will ready the school building, toilet, drinking water etc for immediate shelter during disaster. They will inform the CRCC/BLOCK ACCOUNTANT/SIS/MIS CO-

ORDINATOR/BEE0 immediately whoever is reachable. All staff will work as a team for disaster as first priority.

ANNEXURE-6.

GOVT. OF ASSAM
OFFICE OF THE BLOCK ELEMENTARY EDUCATION OFFICER, JUGIJAN, HOJAI.

: ORDER :

The following Officials and CRCCs under Block Mission Coordinator, SSA-cum-Block Elementary Education officer, Jugijan, Hojai are hereby notified as **"Designated Officials"** as well as Constituted as **"Monitoring Team"** to monitor the Relief Camp in their respective Area/Cluster in connection with Disaster Management in case of any emergency like flood, erosion and earthquake in rainy season to safe and security of affected peoples as below -

Sl. No.	Name of Officials/CRCCs	Designation/Cluster	Office/Cluster	Contact Number
1	Sri. Jiten Deka	Sub Inspector of Schools	BEE0, Jugijan	96130-84314
2	Sri. Anup Kr. Biswas	Sub Inspector of Schools	BEE0, Jugijan	99548-59036
3	SAHID ANOWAR	Block MIS-Coordinator	BEE0, Jugijan	99541-38125

IV. IRRIGATION DEPARTMENT (JAMUNA CAD DIVISION):

BACKGROUND:-

The Jamuna Irrigation Scheme, named after its source Jamuna river is one of the successful major flow Irrigation scheme in Assam. It is also the first major Irrigation scheme completed in the year 1968-69 at the cost of Rs. 4343.00 crores and commissioned in June 1969. It covers a gross command area (G.C.A) of 33478.00 Ha and culturable command area (C.C.A) of 27705.00 Ha in Karbi Anglong and Hojai District. The command area lies between longitude 25°45' N and 26°4' N and latitudes 92°48' E and 93°15' E. The project is designed to tap Jamuna river near Bakuliaghat of Karbi Anglong district by constructing a diversion weir at Jamuna river and extending canal system on the left bank of the river to cover the command area bounded by the same on the north, bhalukmari puruna kaki Bakalia Road and part of railway line on the south and then extending in western direction beyond Doboka, Nilbagan Hojai Road. The water headed up the weir is carried to the paddy field through Main canal of length 4.24 KM which is further distributed in two direction with the help of three distributaries namely D-1 (25.777 KM), D-2 (23.378) and D-3 (41.544 KM). The whole canal system covers of length of 413.03 KM including Minors and sub-Minors to these three distributaries. It may be mentioned here that the irrigation water supplied by the scheme as this part of Hojai district lies in rain shadow area.

LAST FLOOD EXPERIENCE:-

During the last year flood, several breaches have been occurred in the canal system and reported to the authority through proper channel. Moreover, in the interest of supplying water to the paddy field these breaches have been already closed but no fund has been allotted for the purpose yet.

The main reason of flood in the command area of Jamuna Irrigation Scheme is of heavy unprecedented rainfall occurs in Karbi Anglong Hills and in the Hilly areas of Lumding, then flush flood occurs in the catchment area due to split over water of Dimoru, Khiring Khiring, Kakijan and Dimorija, there is a misconception among the public that the canal system of Jamuna Irrigation Scheme is a reason for flood in same locality, But, the fact is that during flood season the regulator gates are always kept closed. The inlets of the canal system carry the excess water from the field to the canal system and on the other hand in some location the canal water is released through outlet structure. This is cross circulation of flood water only.

At present the following breaches are in deplorable condition of canal cum flood embankment.

- 1) Erosion Protection work from Jamuna River along the C.C.F.E. at Dakhin Debasthan.
 - 2) Erosion protection work at D-3 canal under Jurapukhuri section, Lumding Sub-Division.
 - 3) Overtopping & Damage of canal embankment at Ch-9250.00M to Ch-9330.00 M canal-D3 kaki, Shani Bazer.
 - 4) Flood may damage Kalamonijan Scheme point No. 1 and 2 as severe erosion in the embankment resulting damage to Control Room and tilting of D.I. pipe line.
 - 5) Pubjugijan is a flood prone area, every year flood effect the scheme Dimoru F.I.S resulting to erosion of Earth filling in guide bunds.
 - 6) In Nabhanga and Shibpur Scheme last year flood damage a lot to the canal system, again flood may damage to the canal system.
 - 7) Hayang Pt. I and 2, Waregading Pt. 1 and 2 and Rajbari LIS are flood affected area. Last year flood damaged to the canal system a lot in the above schemes. This year also flood may affect the canal system
- Sl No 2 & 3 estimate already submitted under FDR, and sl no 1 estimate under SDMF is framed and submitted to higher authority.

This division has taken up the following measures as precaution:

- 1) All field officers and staff have already been cautioned for constant stay at the headquarter to clear all blockades and water ways.
- 2) The staff at Headworks of Jamuna FIS are kept on high alert and shall record and inform the water level of Jamuna River on daily basis on the Gauge reading installed at the Herad works site during flood season.

A model guidelines and instructions have been framed and circulated among the field officers and staffs for preparedness of hazard management at department level.

V. Hojai Fire & Emergency Services Station .Hojai

ROLE OF FIRE & EMERGENCY SERVICES HOJAI :-

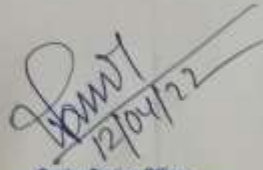

- Rescue trapped casualties
- Control fires, released chemicals and other hazards
- Assess hazards concerning evacuation
- Ensure safety of rescue personnel
- Minimize environmental dangers
- Recover dead in conjunction with the police
- Stand by during recovery Deploy sandbags for flood defense.

- 5) Lanka F&ES STATION with staffs and available cover the following flood affecting area during flood disaster.
 - ✓ Lanka circle
- 5) Lumding F&ES STATION with staffs and available cover the following flood affecting area during flood disaster.
 - ✓ Lanka circle

Background:

Flood is a perennial problem affecting people in many parts of Hojai district every year. It causes severe damage to property and life of the mass. Multi-dimensional attention through inter- departmental services need to be addressed in order to fight against this natural calamity to minimize lose and restore damages in the district as well as in the state. The vulnerable area of the Hojai districts are Dholpukhuri Dev. Block, Jugijan Dev. Block and some parts of Binnakandi Dev. Block.

The department of Fisheries, Hojai has prepared an action plan considering overall scenario of Fisheries sector in Hojai district.

Issues and Challenges in discharging the responsibilities

- Inability to reach the affected areas due to severity of flood.
- Unable to contact with the farmers during to flood due to poor communication system in the remote villages.
- Inadequate funds to undertake operation during flood.
- Unavailability of immediate funds to keep stock of emergency inputs supplies such as lime, feed etc to distribute to the affected farmers

Possible solutions

- Proper communication system will help to reach the affected farmers in the remote areas.
- Availability of emergency funds will help to undertake operation in the extreme situation.
- Farmers and fisher population consciousness about the insurance will help to regain the loss.
- Farmers' willingness and eagerness to visit the department will help to establish strong bond in near future.

Support required

- Requires emergency relief funds for the fishermen community affected during flood from SDRF

Role of the Department**Pre-Flood:** The District Fishery Officer shall-

- Create awareness among the fish farmers and fisher populations in various Block /Panchayat Level about the impending flood.
- Prepare a roadmap of various flood prone areas to ease in survey.
- Acknowledge the fish farmers/fishers population to undertake Fishery Insurance.
- Undertake assessment of total fish farmers and fisher population that can possibly be affected by flood.
- Shall constitute a team of official to entrust them during flood for survey.
- Knowledge based training programme shall be conducted at various flood prone areas to how and what precautions shall be taken during flood.

- Arrangement of necessary stocks such as lime, feeds, seeds, manures, prophylactic treatment materials etc.
- Ensure the fish farmers to create flood resilient bunds/embankments to protect the ponds from flood.

During Flood: On receipt of flood warning, the District Fishery Dev. Officer:

- Shall alert the official team for precaution and necessary action.
- Check stock of seeds, feeds, manures and make arrangements for raising seeds.
- Shall immediately collect data of fish farmers and fisher populations that are affected by flood.
- Suggest them for necessary arrangement to protect the fish from escaping.
- Shall make arrangement for relief distributions to the affected fish farmers and fisher populations as guided by district administration.
- Render technical guidance and arrangement for prophylactic treatment measures of ponds/tanks that are exposed to flood water to prevent from outbreak of disease.

Post Flood: In post flood period, the District Fishery Dev. Officer shall:

- Help in physical restoration of damaged ponds/tanks as per fund availability.
- Supply required and necessary inputs materials to revive their damaged ponds/tanks as per fund availability.
- Suggest the fish farmers for partial harvesting of the marketable size fishes to prevent loss due to possible disease outbreak if any.
- Make necessary arrangement for testing of ponds/tanks exposed to flood water to assess the water quality.

A Disaster Response Team is constituted with following officials from Department of Fisheries, Hojai.

1. Sri Bhabani Prasad Nath, SDFDO, Hojai
2. Sri Utpal Kalita, FDO
3. Sri Lakshman Das, Fishery Demonstrator
4. Sri Rinku Bora, Fishery Demonstrator

6	Squatting Plate	250 Nos.	

ACTION PLAN REPORT FOR FLOOD 2022-23

Pre Flood	The Executive Engineer, Public Health Engineering shall visit the generally flood affected areas by the 30th of April, and : 1) Assess measures likely to be required for safe water supply in the areas;	i) Water pouch will be distributed by mobile Water Treatment Plant Vehicle ii) By installation of SHP/Hand Tube Well, if materials are supplied from the Central Store, Guwahati or obtaining approval for installation of the above from District Administration.
	2) Prepare ; A list Engineering personal of different categories already available in the nearest PHE Division and the number of additional hands that may be required in each area in case of heavy floods; A list of Engineering personal of different categories who in case of necessity can be withdrawn from thier places of work and utilised for relief work;	Enclosed the list of Engineering personal of different category under Hojai PHE Division
	3) Arrange for mobilizing at short notice two PHE teams at the district headquarters to rush them for relief work;	All the field staffs are engaged in their respective PWSS and they will be fully engaged to distribute the chemical packets, bleaching powder, water pouch etc. in the flood affected areas during flood.
	4) Ensure adequate stocks of ; Equipment and materials for sinking tube well, ring well, pit/sanitary latrines in the relief camps and other places in the flood affected areas; and Camp materials and other stores for workers and keep them in appropriate places. Preposition the water purifier mounted vehicle used for providing	Enclosed the list of required equipments & materials had already submitted to the Chief Engineer (PHE), Assam

	packaged drinking water in vulnerable locations in the State.	
	5) Keep the departmental vehicles in good running condition.	Departmental vehicle is in good running condition
During Flood	On receipt of flood warning, EE shall : 1) Alert subordinate officers and staff regarding floods;	Noted and shall be executed accordingly
	2) Check vehicles, equipment, stores and	
	3) Draw up tentative programmes for action.	
	On occurrence of floods, EE shall: 1) Keep close touch with the DC;	
	2) Visit the flood affected areas immediately with one PHE team and start measures for water supply and pit/sanitary latrines.	
	3) Assess extent of water supply measures required and deploy necessary staff. If the staff available in the district are not sufficient to cope with the situation, arrange through CPHE additional staff ; and	Noted and shall be executed accordingly
	4) Constantly visit the flood affected areas and ensure adequate safe water supply measures and sanitation in the relief camps.	
Post Flood	After flood relief operation, EE shall : 1) Restore tools and equipment, stores etc. and	Noted and shall be executed accordingly
	2) Repair/replace damaged tools and equipment	
	3) SDRF proposals for damaged water supply pipe lines and infrastructures.	

Executive Engineer (PHE),
Hojai Division, Hojai

Health Department:

ACTION PLAN FOR DISASTER MANAGEMENT OF JUGIJAN BPHC

INTRODUCTION:

Hojai District comprises mainly with Hojai Lanka, Doboka, Jamunamukh, Jugijan, Nilbagan, Dighaljar, Kaki, Kapashbari and Lumding areas of Hojai District and its total population is roughly about 9.5 lacs. All the areas except Lumding are flood affected. The village mainly affected are:-

HOJAI MOUZA:: Raikata, Raikata Chandanpur, Raikata Kacharigaon, Islampur, Jathara, Komurakata, Theplaiguri, Mainapathar, Bishnupur, Dighalbari, Amtola, Howaipur, Darjee Sheet, Jamunasheet, Bhimarali, Jurangpathar, Kathaltoli, Beedingbosti and Dimarupar.

LANKA MOUZA:: Uttar Laskarpathar, Dakhin Laskarpathar, Lankajan, Farmapar, Kapilipar, Dablong, Manduli, Lalungdubi, Bordalong, Akantu, Thaisur, Borua Bazar, Khong Khongbosti, Kopahara and Simlaibosti

JAMUNAMUKH MOUZA:: Jamunaguri, Baliram Gaon, Patiapam, Nagayanpam, Nikharimukh, Kahargaon, Kathkatia, Sangjurai, Patiapathar, Lalungpathar, Burhibosti, Kathkatia Gaon, Bherbheri, Dhekerua, Sarupathar and Sikamari.

NA-MATI MOUZA-(A):: (under Lanka BPHC):: Kapashbari Areas

NA-MATI MOUZA:: (Doboka):: Doboka town, Janghal Block, Burhigaon, Sutargaon, Sangmazi, Dakhin Sangmazi, Goroimari, Bheduati, Sarlok, U/Bheduati, Dighaljarani, Dabaka pathar, Nahargaon, Bhagiram pathar Mikirati, Hargaon, Modertoli Mikirgaon, Lalmati, Gangadisha and Nikharimukh.

NA-MATI MOUZA:: (under Jugijan PHC) :: Moudangagaon, Moudangapathar, Moudanga Nigam, Pub & Pachim Jamunagaon, Udmari, Mikirpara, Kacharipara, Pachim Koroiguri, Gonipur, Pub Ruarpur and Pachim Ruarpur

JUGIJAN MOUZA:: Kenduguri, Dakhin Kenduguri, Kenduguri Dasbosti, Hayang Gaon, Hayang Bosti, Wearigeding, Radhanagar, Komurakata Forest Village, Pub Nabhanga, Nabhanga, Hatimara, Taradubi, Rajbari, Sibpur, Soulmari, Pub Soulmari, Hindu Block, Barafuti, Pub Jugijan, Pachim Jugijan, Brajapur, Ahompara, Pub Kandhulimari, Kandhulimari, Pub & Pachim Bagari, Pachim Soulmari, Dakhin Bheduati, Bohula, Soulmari, Dabaka Nala, Namdabaka Nala and Rajapukhuri

ACTION PLAN:: An action plan, for prospected disaster like flood, storm, earth-quake etc and taking view of the medical emergency likely to occur during and after such a disaster, is designed for Hojai sub-Division for the year 2019-20 with the following resources, structure and job assign:

RESOURCE::MAN POWER: Doctors:- 65 Nos Pharmacist:-19 Nos LHS:-1 Nos GNM:- 59 Nos.(including Model Hospital) ANMS:- 159 Nos. BEE:-2Nos. HE:-3Nos. BPM:-2 Nos. Sanitary Inspectors:-Nil, Health Asstt.:-2 Nos. Social Worker(FW):-1 Nos. Non Medical Supervisor:- Nil, MPWS:- 53 Nos. Surveillance Malaria Inspector:- 3 Nos. Surveillance Inspector (Malaria):- 9 Nos. Surveillance Worker (Malaria): 38 Nos. Non Medical Asstt.:- Nil. Opht. Asstt.:- 1No. MTS:-1No. Lab. Tech.:- 15 Nos. ASHA:- 693 Nos. ASHA Facilitators:- 58 Nos.

INSTITUTIONS :: BLOCK PHC :: JUGIJAN :: Jugijan , Hojai FRU, Nilbagan MPHC, Dighaljar St.

Dispy. Sub - Center :- 28 Nos. Block PHC LANKA :: Lanka, Lumding FRU, Kaki MPHC, Phultoli MPHC, Derapathar St. Dispy., and Kapashbari St. Dispy. Sub-Centre:- 53 Nos. Kathiatoli (partly):: Dabaka CHC Jamunamukh MPHC, Sub - Center -11 Nos.

PRIVATE HEALTH INSTITUTION :: 1. Haji Abdul Mazid Memorial Hospital & Recherche Center, Hojai, Contact No. 9957371310 2. Dey's Nursing Home, Hojai, Contact No. - 03674252086

MEDICINE : Supplied routinely to all the above mentioned Institutions directly from District Medicine Store, Hojai and instructed all I/C of Hospitals to place special demand for medical relief for their respective jurisdiction. An Emergency Buffer stock is maintained in District Drug Store, Hojai. Bleaching Powder and Phenyl are not available in District Drug Store Hojai.

Deputy Commissioner, Hojai Sankardev Nagar is requested to arrange Bleaching Powder and Phenyl.

AMBULANCE FACILITY:: Total: 7 Nos. available in Dabaka CHC/Nilbagan MPHC/ Jugijan PHC/Kaki MPHC/Lanka PHC and Lumding FRU.

MRITYUNJOY 108 FACILITY :: Total : 7Nos, available in Hojai/Lanka/Lumding/Kaki /Odali/Jamunamukh/ Nilbagan102 Ambulance Facility :: Total 6 Nos, available in Hojai / Lanka/Lumding/Jugljan Jamunamukh/ Doboka.

MOBILE MEDICAL UNIT:: available in Hojai District.

STRUCTURE & JOB ASSIGNMENT::

CONTROL ROOM :: A control room is established at Office of the Joint Director of Health Services, Hojai for Hojai District with M/No. 7002740653 and 9957793874 under the arrangement and supervision of Dr.Gulzar Hussain, SD & HO, HQ, Hojai and Mr. S R Rajbongshi, HE O/o the Jt. DHS, Hojai. They will prepare duty roster for control room and maintain a register for record of information received and action taken thereupon.

RAPID ACTION TEAM

3 Nos. of Action teams are constituted :

1. SDM & HO Lanka BPHC will prepared Medical Team for Lanka Sector, Lumding sector, Kapashbarl sector and Kaki Sector.
2. SDM & HO Jugijan BPHC will prepared Medical Team for Jugijan Sector, Hojal Sector, Nilbagan Sector and Dighaljar Sector.
3. In-Charge Doboka CHC will prepared Medical team for Doboka Sector and Jamunamukh Sector to combat the flood situation in their respective areas. They will keep ready their ambulance with necessary medicines etc. at all time.

A CENTRAL COMMITTEE is set up with the following officers under the chairmanship of Joint Director of Health Services, Hojai to resolve any problem during such crisis ::

1. Dr. Jerina Ahmed, CM & HO (CD)Vice Chairman Member
2. Dr.S.C Das, Addl CM & HO (FW) Hojai.....Vice Chairman Member
3. Dr. Gulzar Hussain, SDM & HO, HQ , Hojal..... Member
4. Dr. Basudev Malakar, Dy. Supdt. Hojai FRU..... Member
5. Dr. Ramen Ch. Bordoloi, SDM & HO, Jugijan BPHC..... Member
6. Dr. Harajugindra Singh, SDM & HO, Lanka BPHC..... Member
7. Dr. S Dey, Dy.Suptd., Lumding FRU..... Member
8. Dr. Ishahoque Ali, Sr. M & HO, Doboka CHC..... Member

V. SOCIAL WELFARE DEPARTMENT

Action Plan:

Floods are often a result of heavy rains associated with the natural course of surplus water flow being hindered by encroachments, unplanned development and the like. Heavy rainfall in excess of normal capacity to manage the quantity of water can also result in floods in Urban & Rural areas.

Relief, Rehabilitation and Preparedness during flood:

Kids, infants, Pregnant Women, Lactating Mothers people with disabilities, elderly people and people with seriously ill may all need special consideration while planning for an emergency flood situation with having an emergency plan and disaster survival supply kit which will help during every kind of crisis with the help of line department, Hojai as follows-

- Arrange safe drinking water and sanitation during floods – along with the PHE Department. Provide mobile water tankers for ensuring supply of potable water to the flood affected areas.
- Arrange safe & high place where temporary Flood relief camp can be organised. specially taking care for Pregnant Women, Lactating Mothers, 0 to 6 Years children etc.
- Arrange some Breast-feeding corner, child friendly place in that particular Flood relief camp. which have a shelter-in-place plan and where they will go if they are forced to evacuate during flood emergency.
- Provide some Fast aid medicine, along with menstrual pad for women, emergency equipment kit etc with the help of health department.
- Arrange Dry ration, RTE food to the flood affected areas specially Pregnant Women, Lactating Mothers, children etc.
- Remove general as well as toxic waste during floods & maintaining personal Hygiene.
- Arrange fogging measures for mosquito control in that areas, uses disinfected, sanitizers etc - especially areas which were recently affected by floods.
- Keeping on high alert of our ICDS team ie CDPOs, Supervisors, Anganwadi Workers & Anganwadi Helpers in collaboration with Disasters Management team during massive floods situation in those flood affected areas covered under 189 Nos of Anganwadi centre.
- Volunteer are need to be trained to respond to all sorts of flood emergency, Learn how can they rescue, teach others how to prepared & be ready for surviving and recovering from such kind of disaster.

The role and responsibilities are destined to witness a phenomenal expansion in the coming years due to the heightened social awareness of the problems faced by the children, women and physically challenged persons, recognition of their genuine needs at both national and international levels and commitment of both the central and state governments to ensure inclusive growth.

Organizational structure:

- a. Administrative department: The Secretary, Social Welfare Department, Assam is the administrative head at the state level.

- b. Directorate: Director of Social Welfare, Assam functions as the head of department and control over all districts.
- c. Other sub-ordinate offices:
 1. The Programme Officer in the Division.
 2. The District Social Welfare Officer as district head.
 3. The Superintendent of State Homes and Juvenile Justice Act.
 4. At Block level The Child Development Project officer of ICDS

Response plan:

- **Mechanism for early warning and dissemination thereof :**

Preparedness	Pre disaster	During Disaster	Post Disaster
a) Project wise keep Update records of Vulnerable Children, pregnant, lactating, o & infirm etc. b) List out the staff with Contact & address. c) List out the staff with Contact address. d) Stock position of the Food and other materials in AWC's. e) ANM's/ male health Workers/ volunteers/task forces Anganwadi workers for use and Providing minimum health serv To the community. f) Coordination with CHC PHC for arranging mobile h unit For inaccessible areas. g) Disinfections of Drinkin Water sources thrice before flo Season at least, one month befo h) Site visit and report Preparation. i) Awareness generation using bleaching. j) Helping BDO during Emergency. k) Supply of drinking wate During emergency.	a) CDPO's, Supervisor AWW will be directed to join Head Quarter. b) Setting of a control Room & delegation of dutie area distribution . c) Requ est BDO for requisition of vehicle. d) To inform all its staf members to report their respective headquarter.	a) Arrangement Of medical help. b) Coordination Of the information an keeping a strict vigil over the situation and act accordingly. c) Maintenance of record for information generatio and dissemination. d) Co-ordinate with district Administration.	a) Damage assessment. b) Identification of areas for clearance. c) Delegation of team. d) Monitoring of work. e) Proposal to the Government for repair and restoration.

A. Flood Contingency Plan for the year 2022-2023, APDCL, Kathiatoli ESD

1. Prevention:

- 1. Raising of transformers at flood affected area .
- Total 18 no's of transformers are planned to be raised from their existing platform to a higher level at Changmajigaon, bedoati, jungleblock Nagypam, sarupathar, jamunamukh.
- 2. Raising of HT and LT overhead lines
- Height raising of overhead 11 kv line near nagypamroad, jungle block area to avoid any unwanted incident during flood.
- 3. Strengthening of electrical poles at flood affected areas
- Boulder packing and intermediate pole erection in the areas affected by flood in the financial year 2020-2021 to avoid tilting of poles due to water logging.

2. Mitigation

- 1. Announcement and postering of emergency phone numbers for local villagers to inform APDCL about rising of water level to avoid any electrical accident.
- 2. Shift wise manpower deployment in flood affected area for disconnection of power in flood effected area during water level rising.

3. Response

- 1. Disconnection of power lines from 5 pm till morning 6 am to avoid any accident due to sudden raise in water level during flood time. Lines will be charged only after physical verification of APDCL at early morning hours.
- 2. Replacement of damage pole and transformer immediately after lowering of water level.
- 3. Arrangement of local fishing boat in advance those could be used by line staff to reach areas which are not motor able during flood.

B. Flood Contingency Plan for the year 2022-2023 under APDCL, Lanka ESD

1. Prevention:

- 1. Raising of transformers at flood affected area .
- Total 13 no's of transformers are planned to be raised from their existing platform to a higher level at Manduli, Kapilipar, Uttar Laskar Pather, Akantu, Darjisheet area.
- 2. Raising of HT and LT overhead lines
- Height raising of overhead 11 kv River Crossing line over Kapili River at manduli, Kapilipar and LT line at various location to avoid any unwanted incident during flood .
- 3. Strengthening of electrical poles at flood effected areas

- Boulder packing and intermediate pole erection in the areas affected by flood in the financial year 2020-2021 to avoid tilting of poles due to waterlogging.

2. Mitigation

- 1. Announcement and posting of emergency phone numbers for local villagers to inform APDCL about rising of water level to avoid any electrical accident.
- 2. Shift wise manpower deployment in flood affected area for disconnection of power in flood effected area during water level rising.

3. Response

- 1. Disconnection of power lines from 5 pm till morning 6 am to avoid any accident due to sudden raise in water level during flood time. Lines will be charged only after physical verification of APDCL at early morning hours.
- 2. Replacement of damage pole and transformer immediately after lowering of water level.
- 3. Arrangement of local fishing boat in advance those could be used by line staff to reach areas which are not motor able during flood.

C. Flood Contingency Plan for the year 2022-2023, APDCL, Hojai ESD

1. Prevention:

- 1. Raising of transformers at flood affected area .
- Total 8 no's of transformers are planned to be raised from their existing platform to a higher level at Doboka, Debosthan, Thikadarbasti, Kumurakata Bazar, Kenduguri and Choudhuri bazaar.
- 2. Raising of HT and LT overhead lines
- Height raising of overhead 11 kv line near Murajhar, Oxekpathar, Borbali, Doboka, Ambari, Kenduguri, Raikata, Pub-Dhanirampathar, GopalNagar, Alinagar areas to avoid any unwanted incident during flood .
- 3. Strengthening of electrical poles at flood affected areas
- Boulder packing and intermediate pole erection in the areas affected by flood in the financial year 2020-2021 to avoid tilting of poles due to waterlogging.

2. Mitigation

- 1. Announcement and posting of emergency phone numbers for local villagers to inform APDCL about rising of water level to avoid any electrical accident.
- 2. Shift wise manpower deployment in flood affected area for disconnection of power in flood effected area during water level rising.

3. Response

- 1. Disconnection of power lines from 5 pm till morning 6 am to avoid any accident due to sudden raise in water level during flood time. Lines will be charged only after physical verification of APDCL at early morning hours.
- 2. Replacement of damage pole and transformer immediately after lowering of water level.

- 3. Arrangement of local fishing boat in advance those could be used by line staff to reach areas which are not motor able during flood.

D. Flood Contingency Plan for the year 2022-2023, APDCL, Hojai ED

1. Prevention:

a. After discussion with AGM, T&C Division, support has been provided for R&M and reinstate of damaged DC Battery Bank in effected Control Rooms viz. Modertoli, Nilbagan. The presence of Healthy Trip Circuit helps avoid untoward accidents due to snapping of 11kV conductors.

b. One 33kV Outdoor CT has been replaced at 33/11kV Hojai SS.

c. Request for release of Pre-monsoon Maintenance Fund would be beneficial for ESDs.

2. Mitigation

a. APDCL Field Officials are requested to conduct public awareness in addition to announcement and postering of emergency phone numbers for local villagers/ gaonburhas/ Feeder Management Committee(s) to inform APDCL about rising of water level to avoid any electrical accident.

3. Response

a. Emergency Contact numbers of Field Officers, DDMA and Circle Officers of all Revenue Circles are shared with concerned SDEs for quick response and reporting of damage of any line properties due to storm, Flood, lightning, earthquake, etc. any natural calamities.

b. Deployment of Empanelled Contractors for emergency restoration of lines once the working condition is favourable.

c. Arrangement of PPE kit for APDCL field workers.

Hojai Territorial Road Division

INTRODUCTION

i) Statistical profile of the Department:

PWD, Hojai District Territorial Road Division was created in 6th December/2019, earlier this division was known as PWD, Baithalangshu NEC Division created in 1979 which was later renamed as Kampur NEC Road Division created on 1986. It falls under Nagaon Road Circle, Nagaon and PWD, Tezpur Zone, Tezpur. The Circle is headed by The Superintending Engineer and Addl. Chief Engineer is the administrator of the Zone.

ii) Organizational Structure.

The Division is headed by the Executive Engineer. The functions of the Division are supervised with 3 (three) nos. of Sub-Division as follows.

- a) PWD, Lumding Territorial Road Sub-Division, Lumding
- b) PWD, Hojai Territorial Road Sub-Division, Hojai
- c) PWD, Jamunamukh Territorial Road Sub-Division, Jamunamukh

Details of infrastructure available with the Hojai Territorial Road Division.

Under this Division total length of the road = 2059.871 km (approx.) out of which 835.92 km black topped, 309.424 km ICBP and 118.74 km cement concrete road, 795.79 km matted road.

Under this Division there are 55 Nos. RCC bridges/ SPT Bridges/Iron Bridge

Main tasks of the Department and possibilities of integration of related disaster management aspects

Main tasks of the Department:

The primary responsibilities/activities of Hojai District Territorial Road Division is maintenance and improvement of Rural Road (i.e. infrastructure of roads ,bridges, culverts and road furniture/road signs) that signifies as a key component of rural development by promoting access to economic and social service and thereby generating increased agriculture incomes and productive employment opportunities .

Some of the important tasks under this department are as follows :

i) PMGSY:

The Pradhan Mantri Gramin Sadak Yojana is a nationwide plan in India to provide good all weather road connectivity to unconnected habitations. It is under the authority of the Ministry of Rural Developed, Govt.of India and it was begun in 2000. The goal was to provide connectivity with all weather roads to all the villages with a population of 1000 persons and 500 persons.

At the district level, the programme is co-ordinated and implanted through Programme Implementation Unit (PIU). In Hojai District, it is carried out by P.W.D, Hojai District Territorial Road Division,.

ii) OTHER THAN PMGSY

Under Rural Infrastructure Development Fund other than PMGSY, different schemes are sanctioned for development of rural infrastructure, particularly rural roads and construction of R.C.C. Bridges

iii) INTREGRATION WITH WATER RESOURCE DEPARTMENT:

Prior to the finalization of Black Topped road level and Deck level of RCC Bridge, HFL (High Flood Level) data will be collected from concerned Water Resource Department of that area.

3.1.2. Possibilities of integration of related disaster management aspects

It is difficult to predict the accurate time, location, magnitude of any disasters. So, the departmental construction works should always be concerned with the disasters whether known or unknown or unforeseen. Hence, the construction of a road/cross drainage works should be plan/designed and construct it in conformity with the standard code of practices utilizing sound able materials .To maintain the quality of the construction works ,the laboratory tests plays a vital role. The weak bridges should be strengthened by retrofitting, steel trusses, replacement of elastomeric bearings, alteration of wearing coat by mastic asphalt etc. All SPT bridges is also to be converted into RCC one. Introducing Interlocking Concrete Paver Block (ICPB) pavement gives a higher priority in this region over conventional bituminous roads as effective measures to climatic change scenario. Besides that, erection of road side drain also imparts fruitful results. The geometric design for the pavement such as design speed, ROW, Carriage width, vertical curves, horizontal curves, camber, super elevation etc. have been incorporated in road project as per standard guidelines.

All requisite road safety signs as per standard guidelines have been incorporated in proper places to minimize accidents and effective utilization of road networks. Some following road furniture should be included in a road project.

- Road marking
- Cautionary, Mandatory , Informatory signs
- Km stones and 200m stones
- Delineators and object markers
- Guard posts, crash barriers and speed breakers
- Rumble strip

A key road map of this district would be prepared by the Line departments which specify NH, state roads, block roads, village roads, railways, waterways, indices etc. as a ready reference with the help of District Administration.

Departmental capacity building policy for Disaster Management:-

The Hojai District Territorial Road Division proposes the following for capacity building policy.

- The department will propose to the Government for procurement of modernized construction equipments such as vehicles viz. excavator, dumper , cranes ,roller, truck , mixture machine , vibrators , laboratory testing equipments etc.
- There will be a sophisticated laboratory to carry out departmental works in good quality. —

- Registration of sound contractors under this division who have ample construction materials, tools and equipments, vehicles and man power.
- Arrangement of training programs for the departmental staff, contractors, NGOs, civil citizens in regards of advance knowledge and skills with the experts . Besides that, some awareness programs will be also held.
- A rich training programs of some technical staff /register contractors with the other institutions will be proposed to the Government. These training programs will be held on Awareness of road safety, Procedure & testing of materials, Advance Technical know how about construction of roads to field staff, Climatic Change Adaptation & Disaster Risk Reduction in relation to Road works etc.
- Distribution of leaf lets, erection of hoarding / posturing about the road safety.
- Incorporation of reputed construction company in road works.
- Construction of road with Interlocking Concrete Paver Block (ICPB) pavement instead of traditional bituminous road surface.
- Construction of road side drain with the proposed and existing roads.
- Construction of road furniture/road signs effectively at each road.
- Incorporation of experts within the construction of new roads, repairing, strengthening and retrofitting works.
- Mock Drills

Gaps in the existing capacity:-

The road works are very complex and critical. But, the road division does not have sufficient capacity to carry out the road works . The department is dependent on the support of others such as contractors / suppliers, laboratory test etc. At present, there are no departmental vehicles such as roller, dumper, excavators, ladders, cranes, boats, modernized tools & equipment to fight with the disasters under this division. As a result, the man power and technical know how cannot be effectively utilized. Besides that, materials like cement, reinforcement, bitumen etc. are not available with the department .This has to be arranged by the contractors for respective works. Due to lack of fund under these department, the training programs could not arranged in time.

Review, Up gradation, Dissemination of DM Plan :-

DM plan is a -living documentl. Regular improvement and updating of the Departmental Disaster Management Plan will be done half yearly with incorporation of new suggestions and addition of improvement mechanisms.

However, an updated schedule of time framed is as here under.

Particulars	Scheduled time	Responsible Officer
Updation	Quarterly	AEE
Review	Half Yearly	EE

WATER RESOURCES DEPARTMENT

1. **Control Room** :- The Departmental Control Room will be functioning in the office of the Executive Engineer, Nagaon W.R. Division with effect from 15th May 2022 to 15th Oct.-2022, round the clock. Flood messages will be transmitted everyday at 12 hours from the Control Room. Telephone No. of Control Room – **03672231132**.
2. **Field Staff** :- Field staff are detailed in their respective sections/beats as shown in Annexure-I.
3. **Flood Fighting Materials** :- Flood fighting materials will be centrally stocked in the Divisional Store, Nagaon and shall be sent to the different sections/beats as per requirements.
4. **Embankments and Vulnerable reaches** :-
 - **Kopilli Right Bank dyke from Kharikhana to Jugijan** :- Water Resources Division has an embankment along the right bank of River Kopilli from Kharikhana to Jugijan which falls under jurisdiction of Hojai district. Length-23km, Benefited area: - 24,847 ha. The dyke is prone to flood damages at several locations due to seepage, leakage, boiling, etc. during high flood periods. The breaches (Two major breaches and ten breach like damages) that occurred during the flood of 2020 have been Closed & repaired.
5. **Flood Gauge Stations** :-
 - (i). At Silghat for river Brahmaputra. Danger level- 67.00m.
 - (ii). At Kampur for river Kopilli. Danger level -60.50m.
 - (iii). At Nagaon for river Kallong. Danger level-59.146m.

Temporary Gauge Station :-(IV). At Thaisubali for river Kopilli . Danger level- 71.00M.

Water levels will be recorded during the flood period twice daily at 8 A.M. and 4 P.M. in the respective flood gauge stations and sent to the Divisional Control Room.

6. **Rain Gauge Station** :- At Water Resources Office compound. Rainfall is recorded once daily at 8 A.M. and sent to the Divisional Control Room.

RAINFALL DATA FOR LAST 12th YEARS RECORDED AT NAGAON

Sl. No.	Year	Total Rainfall (mm)
1	2010	2110.40 mm
2	2011	2090.37 mm
3	2012	3870.40 mm
4	2013	4290.40 mm
5	2014	3837.50 mm
6	2015	4031.80 mm
7	2016	4422.60 mm
8	2017	5538.90 mm

A.H.& VETY. DEPARTMENT

Office of the District A.H.& Vety Officer,Hojai

There are 16 Nos of veterinary institutions in Hojai district.

1.	State vety. Dispensary	-	Natunbazar, Hojai
2.	State vety. Dispensary	-	Jorapukhuri.
3.	State vety. Dispensary	-	Murajhar
4.	State vety. Dispensary	-	Nilbagan
5.	State vety. Dispensary	-	Doboka
6.	State vety. Dispensary	-	Jamunamukh
7.	State vety. Dispensary	-	Radhanagar
8.	State vety. Dispensary	-	Laskarpathar
9.	State vety. Dispensary	-	Lumding
10.	State vety. Dispensary	-	Lanka
11.	Key village centre	-	Lanka
12.	A. I . Centre	-	Derapather
13.	A. I . Centre	-	Karikhana
14.	RAIC	-	Hojai
15.	Block vety. Dispensary	-	Jugijan
16.	Block vety. Dispensary	-	Lanka

Strength of staff Position

1.	Sub Divisional A. H. & Veterinary officer -	1
2.	Block vety. Officer,	2
3.	Veterinary officer,	11
4.	Accountant	1
5.	Junior Asstt	1
6.	Live Stock Inspector	1
7.	Driver	1
8.	SVFA	3
9.	VFA	21
10.	Grade IV	17

NAME OF THE SCHEME:

1. National Animal Disease control programme (NADCP)
2. 3,00,000 doses of FMD (Foot and mouth Disease) Vaccine received in the month of oct/2020 from Govt. Of India. The programme temporarily withheld till date.
3. Artificial Insemination programme under Assam Livestock Department Agency (ALDA)
4. Animal Registration in INAPH portal under NDDB
5. To up gradation of local animal (cattle/Goat through Artificial insemination to get high yielding variety of animal.
6. Conservation of local breed.
7. Gopal Mitra/ MAITRI are trained for A.I. purpose to serve in the rural areas.
8. Animal Breeding Policy (upto 62.5% germplasm followed).
9. Fertility reproduction, Mastities, Deworming camp are going on under (ALDA) Assam Livestock Development Agency. ASF, Tagging going on under national Livestock Mission.

1. Total Population of Livestock & Poultry:

1. Cattle	=	2,57,000
2. Buffalo	=	1500
3. Pig	=	7650
4. Sheep	=	335
5. Goat	=	105,169
6. Poultry	=	30709
7. Breedable Cattle	=	1,10,000 (approx)

Pre -disaster preparedness :

Awareness : Awareness group meeting organise for the people of flood affected area for self preparation regarding management resco, cultivation of fodder,, preparation of silage, preservation of hay straw etc, atleast one meeting under each dispensary.

Pre -disaster preparedness

P R E F L O O D	1) Convene meetings of the DDMA for flood preparedness of which the first meeting is to be held by the 15th of February to advise on the following in aspect of the district headquarters/ subdivision Maximum number of relief centres likely to be set up Facilities to be available at each centre Maximum likely number of relief parties The manner in which individuals and voluntary organizations are to be associated with the relief teams The manner in which Panchayats will be associated with relief operations. List of protection works to be completed by the 30th of April by the Water Resource department/ Panchayats. Labour-oriented works likely to be taken up by P&RD, P.W.D, Irrigation, Forest, Agriculture and others Issues relating to flood affected areas to be tackled by P.W.D, W.R. and the Irrigation Department before the onset of monsoons; and Adequacy or otherwise of the preparations made by the various authorities concerned for dealing with the floods as required 2) Take up steps for implementation by the various authorities as per the recommendations of DDMA meeting on flood preparedness. By 30th April, the DC as Chairperson DDMA will: Divide the district into compact zones each comprising a group of villages falling under both ‘_very vulnerable’ and ‘_vulnerable’ areas as classified in DDMP and each such zone shall be serially numbered. Select responsible officers not below the rank of Circle Officer who have thorough idea of the geographical terrain and other local conditions of the respective zone, to be designated as Relief Officer (RO) for placing him in charge of each zone and shouldering such duties and responsibilities as may be assigned to him Select sites for evacuation centres and relief centres in safe areas. The site for sheltering livestock may be decided in consultation with the district A. H. & Veterinary officer. In selecting sites, preference shall be given to high lands, schools, market places and places not likely to be inundated. Make a rough estimate of requirements: Controlled commodities like rice, <i>atta</i>, and controlled cloth and other non-controlled essential commodities like edible oil, salt, kerosene, free sugar, gur, pulses, potatoes, baby food, wheat bran and similar items and intimate the Deputy Director or any other officers of Civil Supplies in the district for necessary arrangement. Petrol for vehicles requisitioned from the public; engine driven mar-boats, launches and arrange with depots or agencies of the IOC for ensuring supply as and when required during floods and intimate such arrangements to the district officers of the concerning departments. Operational cost of the boats for carrying out Search & Rescue and evacuation operation may be incurred from the GR funds. 3) Prepare A sub-division wise list of officers and staff available for deployment of relief duty as and when called for; A list of jeeps, buses, trucks and other vehicles for requisition in case of necessity, in consultation with the D.T.O; A list of boats/mar-boats/bailey bridges as shall be
--------------------------------------	---

	available from P.W.D. and the Inland Water Transport Department. A list of boats, private and public, other than those included in the list prepared under (iii) above, which can be requisitioned in case of necessity. 4) The Deputy Commissioner will undertake a joint inspection by the 10th of May along with the E.E., WR department and S.P., as a precautionary measure against breaches in embankments, bunds, drains, nullahs and other flood protection works, to see if necessary repairs and the like have been done and that they are in good condition.
D U R I N G F L O O D	1) DDMA will conduct weekly meeting to review flood management during the flood season 2) On receipt of flood warning D.C will: Take action as per Standard Operating Procedure (SOP) prepared by the State Send relief officers along with other staff to the respective zones; Request SP to send Police party and install temporary wireless stations if required Direct Station Officer, Fire & Emergency Services to place State Disaster Response Force (SDRF) personnel along with rescue boats if required. Seek suggestion from the WR department for evacuating people from vulnerable places 3) On occurrence of Flood the DC will: Visit the places of occurrence Ascertain the nature and extent of flood Make prompt operational decisions Assess requirement of men and materials for relief operations Call for coordinated aid Ensure that services are arranged and materials are mobilized according to the needs Supervise arrangement in Evacuation centres and Relief Camps Arrange to collect donation in cash and kind from local branches of Red Cross, UNICEF etc. & contribution from the Voluntary Organizations Requisition as and when necessary the services of the officers of various departments, Urban Local bodies and Zilla Parishads for undertaking relief works Call for Non-Officials/Volunteers/ of other voluntary organizations, if circumstances so warrant, to associate for such works as may be considered suitable for Secure assistance from the Army/NDRF or other Central Government Response agencies when arrangement made by civil authorities prove to be inadequate D.C will make arrangements for constructing shelter in Relief Camps if required and will arrange in the Relief Camps sanitation and maintenance of clean lines and water supply through the P.H.E.DC will, within the scales prescribed by the State, grant gratuitous relief in cash and kind to the deserving affected people. Gratuitous relief will be distributed through responsible Government officers. Details of the GR issued are to be displayed in a notice board in the Relief Camp for public information and maintenance of transparency DC will arrange proper distribution of relief articles received as donation in kind among the deserving affected people through the official and non-official agencies DC will arrange for taking care of the infirm, destitute, orphans, children and expectant/nursing mothers in the relief centres through the assistance of the distribution social welfare officer Supply of cooked food should generally be discouraged. DC will arrange supply of cooked food in evacuation centres / relief camps only in unavoidable cases. Where so supplied, the quantity should as far as possible be at the scales prescribed by the State

After Flood	1) DC will collect agricultural statistics from the revenue staff and the district agricultural officer about areas under crops actually affected by flood, damage to crops and the number of cultivators involved 2) Immediately after the flood water recedes, a report on losses and damages of each district is to be submitted to the Government in the Revenue & Disaster Management Department. 3) Make: Assessment of the requirement and arrangement for distribution through the Agriculture department: i) Seeds and seedlings as grants-in-aid and ii) Agricultural loans in cash and kind such as seeds, seedlings, manures, agricultural equipment Grant rehabilitation loans for construction repairmen of houses in deserving cases among the affected people 4) Provide in case of persons who are uprooted by erosion, alternative lands for homestead or cultivation as the case may be and also arrange for distribution among them, if necessary, gricultural grant and loans. Endeavor should however, be made to provide alternative land near about their original villages. <i>Contraction & closure of relief::</i> While it is necessary to provide all kinds of relief required, it is equally essential that strict economy is exercised so that resources of the state do not get strained unduly. Generally, full pictures as to the duration of relief measures will emerge as soon as the waters have subsided. DC will judge for how long the relief operation is to be continued and when contraction/closures of operation is needed. In declaring closures of relief operation he will take the approval of the divisional commissioner and inform all concerned. The following factors should weigh in declaration of contraction/ closure of relief operation. The actual point at which relief operation can safely be closed down will depend on the severity of the crop failure. Where there has been a serious failure of <i>Ahu</i> crop it will usually be necessary to continue relief measures till the next Rabi crop is reaped and where there is a failure of <i>Bao</i> crop relief should usually be continued till such time as DC in consultation with the Commissioner may decide. In other cases, relief measures should not normally be allowed to continue longer then the situation demands. The process of gradual closure of works should normally begin as soon as the demand for field employment sets in. Also, the physical condition of the people and the extent to which private employment is available and wages earned thereby 5) DC will submit a comprehensive report immediately after the closure of the flood relief operations in the district to the Government in the Revenue and Disaster Management Department through the Commissioner of Division Submit details of the loses and damages in the prescribed formats for submission of request of assistance to Government of India, if required Every concerned line department will prepare and submit plans and estimates regarding damaged infrastructure for consideration under SDRF as per the procedures laid down
-------------	--

This is the detail of Flood Contingency Plan for the year 2022-23 and the District Administration/District Disaster Management Authority is prepared to face any such emergency.
